

HSBC and blockchain

[Text on screen] HSBC is the world's largest trade bank

We make trade happen worth \$760bn a year

Enabling the buying and selling of goods and services worldwide

We've digitised documentary trade contracts and pioneered their use on blockchain

Cutting reams of paper and costs

Slashing transaction times from 10 days to under 24 hours

Improving clients' working capital so they can do more business

Now we're rolling out blockchain technology for our clients to use every day

Making trade simpler, safer and faster
