

The Hongkong and Shanghai Banking
Corporation Limited

Interim Disclosure Statement

*prepared under the Banking (Disclosure) Rules
made pursuant to section 60A of the Banking Ordinance*

Supplementary Notes
for the six months ended 30 June 2010

The information contained in this document is supplementary to and should be read in conjunction with the 2010 Interim Consolidated Results Press Release issued on 2 August 2010, available at www.hsbc.com.hk. The information in the two documents, taken together, complies with the Banking (Disclosure) Rules made under section 60A of the Banking Ordinance.

1. Basis of preparation

- a.** From 1 January 2009, the group migrated to the advanced internal ratings-based approach to calculate its credit risk for the majority of its non-securitisation exposures. The group continued to use the internal ratings-based (securitisation) approach to determine credit risk for its securitisation exposures. It also used the standardised (operational risk) approach and standardised (market risk) approach to calculate its operational risk and market risk respectively. An internal models approach was adopted for calculating general market risk, while a separate model is used for calculating the market risk relating to equity options. From 30 March 2009, the group adopted an internal models approach to calculate its market risk in respect of specific risk for the interest rate risk category. There are no changes in the approaches used in 2010.
- b.** Except where indicated otherwise, the financial information contained in this Interim Disclosure Statement and in the 2010 Interim Consolidated Results Press Release has been prepared on a consolidated basis in accordance with accounting principles generally accepted in Hong Kong. Some parts of the information contained in this Statement, however, are required by the Banking (Disclosure) Rules to be prepared on a different basis. In such cases, the Banking (Disclosure) Rules require that certain information is prepared on a basis which excludes some of the subsidiaries of The Hongkong and Shanghai Banking Corporation Limited ('the Bank'). Further information regarding subsidiaries is set out in note 26.
- c.** The accounting policies applied in preparing this document are the same as those applied in preparing the financial statements for the year ended 31 December 2009, as disclosed in the Annual Report and Accounts for 2009, except where otherwise stated in the 2010 Interim Consolidated Results Press Release issued on 2 August 2010.

8. Advances to customers *(continued)*

a. Analysis of advances to customers by industry sector based on categories and definitions used by the Hong Kong Monetary Authority ('HKMA') *(continued)*

The most common method of mitigating credit risk is to take collateral. Collateral includes any tangible security that has a determinable fair market value and is readily marketable. This includes (but is not limited to) cash and deposits, stocks and bonds, mortgages over properties and charges over other fixed assets such as plant and equipment. Where collateral values are greater than gross advances, only the amount of collateral up to the gross advance is included. Certain guarantees and credit derivative contracts are also recognised for credit risk mitigation purposes.

d. Individually assessed impaired advances to customers *(continued)*

For individually assessed customer advances where the industry sectors comprise not less than 10 per cent of the total gross advances to customers, the analysis of gross impaired advances and allowances by major industry sectors based on categories and definitions used by the HSBC Group is as follows:

<i>Figures in HK\$m</i>	<i>Total gross advances</i>	<i>Gross impaired advances</i>	<i>Individually assessed allowances</i>	<i>Collectively assessed allowances</i>
At 30 June 2010				
Residential mortgages	441,557	2,701	(331)	(259)
Commercial, industrial and international trade	445,595	7,050	(5,254)	(1,897)
Commercial real estate	183,975	1,180	(519)	(64)
At 31 December 2009				
Residential mortgages	413,344	2,772	(323)	(326)

Rescheduled advances to customers as a percentage of gross advances to customers	<u>0.3%</u>	<u>0.4%</u>	<u>0.4%</u>

Rescheduled advances to customers are those advances which have been restructured or renegotiated because of deterioration in the financial position of the borrower, or because of the inability of the borrower to meet the original repayment schedule.

Rescheduled advances to customers are stated net of any advances which have subsequently become overdue for more than three months and which are included in 'Overdue advances to customers' (note 8e).

9. Non-bank Mainland exposures

The analysis of non-bank Mainland exposures is based on the categories of non-bank counterparties and the type of direct exposures defined by the HKMA under the Banking (Disclosure) Rules with reference to the HKMA return for non-bank Mainland exposures, which includes the Mainland exposures extended by the Bank and its banking subsidiaries in Mainland China.

10. Cross-border exposures

The country risk exposures in the tables below are prepared in accordance with the HKMA return of External Positions Part II: Cross-Border Claims (MA(BS)9B) guidelines.

Cross-border claims are on-balance sheet exposures to counterparties based on the location of the counterparties after taking into account the transfer of risk.

The tables show claims on individual countries and territories or areas, after recognised risk transfer, amounting to 10 per cent or more of the aggregate cross-border claims.

Cross-border risk is controlled centrally through a well-developed system of country limits and is frequently reviewed to avoid concentration of transfer, economic or political risk.

14. Other assets

Included in the balance sheet within 'Other assets' are, *inter alia*, repossessed assets which are non-financial assets acquired in exchange for loans in order to achieve an orderly realisation, and are reported at the lower of fair value (less costs to sell) and the carrying amount of the loan (net of any impairment allowance).

⁵ The interest rate on the 4.35 per cent callable subordinated bonds 2022 will increase by 1 per cent from June 2017.

⁶ The interest rate on the 5.05 percent callable subordinated bonds 2027 will increase by 1 per cent from November 2022.

19. Subordinated liabilities *(continued)*

The following subordinated notes were classified as 'Financial liabilities designated at fair value' (note 16):

<i>Figures in HK\$m</i>		<i>At 30 June 2010</i>	<i>At 31 December 2009</i>
HK\$1,000m	Callable fixed rate (4.125%) subordinated notes due 2015 ¹	<u>-</u>	<u>1,003</u>

¹ These notes were redeemed during 2010.

20. Reserves

The Bank and its banking subsidiary companies maintain a regulatory reserve to satisfy the provisions of the Banking Ordinance and local regulatory requirements for prudential supervision purposes.

At 30 June 2010, the effect of this requirement is to restrict the amount of reserves which can be distributed to shareholders by HK\$6,182 million (*31 December 2009: HK\$6,413 million*).

21. Off-balance sheet exposures other than derivatives transactions

<i>Contract amounts in HK\$m</i>	<i>At 30 June 2010</i>	<i>At 31 December 2009</i>
Contingent liabilities and commitments		
Direct credit substitutes	45,885	44,774

Commitments which have an original maturity of more than one year	98,435	86,938
	<u>1,382,917</u>	<u>1,281,953</u>
Risk-weighted amounts	<u>202,408</u>	<u>195,566</u>

The table above gives the nominal contract amounts and risk-weighted amounts of contingent liabilities and commitments. The information is consistent with that in the 'Capital Adequacy Ratio' return submitted to the HKMA. The return is prepared on a consolidated basis as specified by the HKMA under the requirement of section 98(2) of the Banking Ordinance.

For the purposes of this Interim Disclosure Statement, acceptances and endorsements are recognised on the balance sheet in 'Other assets' in accordance with Hong Kong Accounting Standard 39 'Financial Instruments: Recognition and Measurement'. For the purpose of the Banking (Capital) Rules, acceptances and endorsements are included in the capital adequacy calculation as if they were contingencies.

Contingent liabilities and commitments are credit-related instruments. The contract amounts represent the amounts at risk should the contracts be fully drawn upon and the customers default. Since a significant portion of guarantees and commitments are expected to expire without being drawn upon, the total of the contract amounts is not representative of expected future cash flows.

22. Derivative transactions

a. Contract amounts of derivative transactions

<i>Figures in HK\$m</i>	<i>At 30 June 2010</i>	<i>At 31 December 2009</i>
Exchange rate contracts	7,084,626	5,398,523
Interest rate contracts	11,789,316	10,531,533
Credit derivative contracts	619,666	612,691
Other over-the-counter ('OTC') derivative contracts	507,607	271,829
	<u>20,001,215</u>	<u>16,814,576</u>

Derivatives arise from futures, forward, swap and option transactions undertaken by the group in the foreign exchange, interest rate, equity, credit and commodity markets. The contract amounts of these instruments included in the table above indicate the volume of transactions outstanding at the balance sheet date. They do not represent amounts at risk.

b. Risk exposures to derivative transactions

<i>Figures in HK\$m</i>	<i>Contract amount</i>	<i>Risk- weighted amount</i>	<i>Fair value</i> †

	<u>15,375,892</u>	<u>48,184</u>	<u>68,887</u>

† Fair value is calculated after taking into account the effect of valid bilateral netting agreements amounting to HK\$181,339 million at 30 June 2010 (31 December 2009: HK\$161,517 million).

22. Derivative transactions *(continued)*

The table above gives the contract amounts, the risk-weighted amounts and the fair value of derivative exposures. The information is consistent with that in the 'Capital Adequacy Ratio' return submitted to the HKMA. The return is prepared on a consolidated basis as specified by the HKMA under the requirement of section 98(2) of the Banking Ordinance.

Fair value is a close approximation of the credit risk for these contracts at the balance sheet date. The actual credit risk is measured internally as the sum of positive fair values and an estimate for the future fluctuation risk, using a future risk factor.

The netting benefits represent amounts where the group has in place legally enforceable rights of offset with individual counterparties to offset the gross amount of positive mark-to-market assets with any negative mark-to-market liabilities with the same customer. These offsets are recognised by the HKMA in the calculation of risk-weighted amount for the capital adequacy ratio.

23. Foreign exchange exposure

Foreign exchange exposures may be divided broadly into two categories: structural and non-structural. Structural exposures are normally long-term in nature and include those arising from investments in overseas subsidiaries, branches, associates and strategic investments as well as capital instruments denominated in currencies other than Hong Kong dollars. Non-structural exposures arise primarily from trading positions and balance sheet management activities. Non-structural exposures can arise and change rapidly. Foreign currency exposures are managed in accordance with the group's risk management policies and procedures.

The group had the following net structural foreign currency exposures that were not less than 10 per cent of the total net structural positions in all foreign currencies:

	<i>Net structural position</i>	
	<i>LCYm</i>	<i>HK\$m</i>
At 30 June 2010		
Chinese renminbi	98,125	112,675
Indian rupees	162,417	27,232
At 31 December 2009		
Chinese renminbi	95,389	108,347
Indian rupees	150,789	25,073

The group had the following non-structural foreign currency positions that were not less than 10 per cent of the group's net non-structural positions in all foreign currencies:

Net options position	13,870	-	-	-
	(14,510)	4,623	(4,616)	(1,777)

The net options position reported above is calculated using the delta-weighted position of the options contracts.

24. Liquidity ratio

The Banking Ordinance requires banks operating in Hong Kong to maintain a minimum liquidity ratio of 25 per cent, calculated in accordance with the provisions of the Fourth Schedule of the Banking Ordinance. This requirement applies separately to the Hong Kong branches of the Bank and to those subsidiary companies which are authorised institutions under the Banking Ordinance.

	<i>Half-year ended</i> <i>30 June</i> <i>2010</i>	<i>Half-year ended</i> <i>30 June</i> <i>2009</i>
The average liquidity ratio for the period was as follows:		
Hong Kong branches of the Bank	<u>42.6%</u>	<u>50.8%</u>

25. Capital adequacy

The following table shows the capital adequacy ratio and the components of the capital base contained in the 'Capital Adequacy Ratio' return submitted to the HKMA by The Hongkong and Shanghai Banking Corporation Limited on a consolidated basis that is specified by the HKMA under the requirement of section 98(2) of the Banking Ordinance.

There is no relevant capital shortfall in any of the group's subsidiaries as at 30 June 2010 and 31 December 2009 that is not included in its consolidation group for regulatory purposes.

- ⌘⌘⌘⌘ *Includes adjustments made in accordance with guidelines issued by the HKMA.*
- ⌘⌘⌘⌘⌘ *Total regulatory reserve and collective provisions are apportioned between the standardised approach and internal ratings-based approach in accordance with guidelines issued by the HKMA. Those apportioned to the standardised approach are included in the supplementary capital. Those apportioned to the internal ratings-based approach are excluded from the supplementary capital.*
- ⌘⌘⌘⌘⌘⌘ *Surplus provisions represent the excess of the total eligible provisions over the total expected loss amount. Surplus provisions are applicable to non-securitisation exposures calculated by using the internal ratings-based approach.*

The capital ratios on a consolidated basis calculated in accordance with the Banking (Capital) Rules are as follows:

	<i>At 30 June 2010</i>	<i>At 31 December 2009</i>
Capital adequacy ratio	14.7%	16.1%
Core capital ratio	11.7%	12.2%

26. Principal subsidiaries and basis of consolidation

The basis of consolidation for accounting purposes is in accordance with Hong Kong Financial Reporting Standards ('HKFRS'). HKFRS is a collective term which includes all applicable individual Hong Kong Financial Reporting Standards, Hong Kong Accounting Standards and Interpretations issued by the Hong Kong Institute of Certified Public Accountants.

The major subsidiaries of the Bank for accounting purposes are:

Hang Seng Bank Limited
HSBC Bank (China) Company Limited
HSBC Bank Malaysia Berhad
HSBC Insurance (Asia) Limited[†]
HSBC Life (International) Limited[†]
HSBC Bank (Taiwan) Limited[†]
HSBC Bank Australia Limited[†]

[†] *Held indirectly*

The basis of consolidation for regulatory purposes is different from the basis of consolidation for accounting purposes. Subsidiaries included in consolidation for regulatory purposes are specified in a notice from the HKMA in accordance with section 98(2) of the Banking Ordinance. Subsidiaries not included in consolidation for regulatory purposes are securities and insurance companies that are authorised and supervised by a regulator and are subject to supervisory arrangements regarding the maintenance of adequate capital to support business activities comparable to those prescribed for authorised institutions under the Banking (Capital) Rules and the Banking Ordinance. The Bank's shareholdings in these subsidiaries are deducted from its core capital and supplementary capital as determined in accordance with Part 3 of the Banking (Capital) Rules. Significant investments in non-subsidiary companies such as associates are deducted from the Bank's core capital and supplementary capital.

With respect to notes 21, 22b and 25, the principal subsidiaries that are not included in the consolidation for regulatory purposes are:

Hang Seng Insurance Company Limited
HSBC Insurance (Asia Pacific) Holdings Limited
HSBC Securities Japan Limited
Hang Seng General Insurance (Hong Kong) Company Limited
HSBC Securities Brokers (Asia) Limited

The group operates subsidiaries in a number of countries and territories where capital is governed by local rules and there may be restrictions on the transfer of regulatory capital and funds between members of the banking group.

27. Statutory accounts

The information in this document is not audited and does not constitute statutory accounts.

Certain financial information in this document is extracted from the statutory accounts for the year ended 31 December 2009 which have been delivered to the Registrar of Companies and the HKMA. The Auditors expressed an unqualified opinion on those statutory accounts in their report dated 1 March 2010.
