2.1 **Final Redemption**

If the Preference Shares have not been previously redeemed in accordance with Condition 2.3 (*Company Call*), Condition 2.4 (*Shareholder Put*) or Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*), each Shareholder shall have the right exercisable from and including the last occurring Valuation Date or the first Auto-Call Valuation Date on which an Auto-Call Trigger Event has occurred, as applicable, to and including the Final Preference Share Redemption Date, by giving notice to the Company, to require the Company immediately to pay or cause to be paid, and if that right is not exercised, the Company will pay or cause to be paid on the Final Preference Share Redemption Date, the Final Preference Share Redemption Amount in respect of each Preference Share in the Settlement Currency, subject to applicable laws, the Articles and the Conditions. The provisions of Article 48(a), (b) and (c) (Redemption of Redeemable Preference Shares) shall not apply to the Preference Shares.

2.4 **Shareholder Put**

If the Company has not given notice of its right to redeem compulsorily the Preference Shares in accordance with Condition 2.3 (*Company Call*), each Shareholder shall have the right exercisable during the Call and Put Period, by giving notice to the Company, to have all of its Preference Shares redeemed at the Call and Put Redemption Amount payable on the date that right is exercised in accordance with the Articles, the Conditions and in the manner determined by the Company.

Upon the occurrence of a Shareholder exercising its right in accordance with this Condition 2.4 (*Shareholder Put*), the Company shall give an Early Preference Share Redemption Notice as soon as practicable to Shareholders in accordance with Condition 6 (*Notices*) of the early redemption of each of the then outstanding Preference Shares.

2.5 **Transfer of Preference Shares**

For the purposes of this Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*) only, following the delivery of an Early Preference Share Redemption Notice, each Shareholder shall have the right exercisable from and including the Early Preference Share Valuation Date to and including the Early Preference Share Redemption Date to require the Company to redeem the Preference Shares immediately (and if that right is not exercised the Company will redeem all of the Preference Shares on the Early Preference Share Redemption Date) at the Early Preference Share Redemption Amount in respect of each Preference Share, subject to applicable laws, the Articles and the Conditions.

4. **Dividends**

In accordance with the Articles, no dividends will be paid in respect of the Preference Shares.

5. **Further Preference Shares**

The Company shall be entitled to issue further Preference Shares from time to time to be consolidated and form a single class with the Preference Shares **provided that** the rights conferred upon the Shareholders shall not be varied, amended or abrogated by the creation, allotment or issue of any further Preference Shares of the same class as the Preference Shares or any different class.

6. **Notices**

Notices to Shareholders shall be delivered to Shareholders at the address for each Shareholder set out in the register of members of the Company with a copy to the Calculation Agent. Any such notice will become effective on the first calendar day after such delivery to such address. Where a notice is being delivered in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*), such notice shall specify the relevant Early Preference Share Valuation Date. A copy of any Early Preference Share Redemption Notice shall also be delivered to any Hedging Counterparty.

Notices to the Company shall be delivered to the Company at the address of the registered office of the Company with a copy to the Calculation Agent. Any such notice will become effective on the first calendar day after such delivery to such address.

7. Calculations and Determinations

Any calculations, determinations and adjustments to be made in relation to the Conditions shall, unless otherwise specified, be made by the Calculation Agent and in such a manner as the Calculation Agent determines is appropriate acting in good faith and in a commercially reasonable manner (having regard in each case to the criteria stipulated in the Conditions and the hedging arrangements entered into with any Hedging Counterparty).

Notwithstanding that certain calculations, determinations and adjustments in the Conditions may be expressed to be on a certain date, the Calculation Agent may make such calculations, determinations and adjustments in respect of that date on a date after that date determined by it acting in good faith and in a commercially reasonable manner.

Pursuant to the Conditions the Calculation Agent has a number of discretions. These are necessary since certain circumstances or the occurrence of certain events may materially affect the costs to the Company and/or a Hedging Counterparty (including in relation to any Related Financial Product) and/or any issuer or obligor of a Related Financial Product of maintaining the Preference Shares or a Related Financial Product or hedging arrangements for the Preference Shares or a Related Financial Product, in each case before and after the occurrence of such event in a way which has not been reflected in the pricing of the Preference Shares and/or the Related Financial Product. In addition, certain circumstances may arise where it is not reasonably practicable or otherwise not appropriate for certain valuations to be carried out in relation to relevant reference assets and in these circumstances the Calculation Agent also may exercise certain discretions acting in good faith and in a commercially reasonable manner.

8. Severability

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

9. Governing Law And Jurisdiction

The Conditions and all non-contractual obligations arising from or in connection with the Conditions shall be governed by and shall be construed in accordance with English law. The English courts shall have exclusive jurisdiction to deal with any dispute and all non-contractual obligations arising from or in connection with the Conditions.

10. Contracts (Rights of Third Parties) Act 1999

No person shall have any rights to enforce any terms or conditions of the Preference Shares under the Contracts (Rights of Third Parties) Act 1999, but this does not affect any right or remedy of any person which exists or is available apart from the Contracts (Rights of Third Parties) Act 1999.

11. Calculation Agent Modifications

The Calculation Agent will employ the methodology and comply with the provisions described in the Conditions to determine the amounts payable in respect of the Preference Shares. The Calculation Agent's determination in the application of such methodology and compliance with the provisions shall be final, conclusive and binding on the Company and Shareholders except in the case of manifest error.

The Calculation Agent shall be free to modify such methodology or provisions from time to time, acting in good faith and in a commercially reasonable manner, (1) as it deems appropriate in response to any market, regulatory, juridical, fiscal or other circumstances which may arise which, in the opinion of the Calculation Agent, necessitates or makes desirable (taking into account the interests of the Company and any obligor of a Related Financial Product) a modification or change of such methodology or provisions or (2) for the purposes of (i) preserving the intended economic terms of the Preference Shares or (ii) curing any ambiguity or correcting or supplementing any provision of the Conditions or (iii) accounting for any change in the basis on which any relevant values, levels or information is calculated or provided which would materially change the commercial effect of any provision or provisions of the Conditions

or (iv) replacing any information provider or source or (v) making amendments to the provisions of a formal, minor or technical nature or (vi) correcting any manifest or proven errors or (vii) making such amendments to comply with mandatory provisions of any applicable laws, **provided that** no modification by the Calculation Agent constituting a variation (or deemed variation) of the rights of the Preference Shares (or any other class of shares of the Company) for the purposes of sections 630-640 of the Companies Act 2006 and/or the Articles shall have effect unless previously approved in accordance with the Companies Act 2006 and the Articles.

Other than with respect to payments, where the Company fails to exercise any discretion or take any action provided to it in the Conditions when the exercise of such discretion or action would be necessary or desirable (as determined by the Calculation Agent), the Calculation Agent may exercise such discretion on its behalf acting in good faith and in a commercially reasonable manner.

12. **Consequences of Disrupted Days**

If any Scheduled Valuation Date in respect of an Index is a Disrupted Day in respect of such Index, then the Initial Valuation Date, the Valuation Date or the Auto-Call Valuation Date, as the case may be, for such Index shall be the first succeeding Scheduled Trading Day for such Index that is not a Disrupted Day relating to that Index, unless each of the Specified Maximum Number of Disrupted Days for such Index immediately following the relevant Scheduled Valuation Date is a Disrupted Day relating to that Index (the "**Limit Date**"). In that case, (a) that Limit Date shall be deemed to be the Initial Valuation Date, the Valuation Date or the Auto-Call Valuation Date, as the case may be, for the relevant Index notwithstanding the fact that such day is a Disrupted Day for such Index, and (b) the Calculation Agent shall determine the level of such Index as of the Valuation Time on that Limit Date in accordance with (subject to the Adjustment Provisions), the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that Limit Date of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that Limit Date, its good faith estimate of the value for the relevant security as of the Valuation Time on that Limit Date).

13. **Adjustments**

(a) ***Successor Index***

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and published by a successor to that Index Sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Index, then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

(b) ***Index Adjustment Events.***

If (i) on or prior to the Initial Valuation Date, the Valuation Date or an Auto-Call Valuation Date the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating the relevant Index or in any other way materially modifies the Index (other than a modification prescribed in the formula or method to maintain that Index in the event of changes in its constituent securities, capitalisation and other routine events) (an "**Index Modification**") or permanently cancels that Index and no Successor Index exists (an "**Index Cancellation**") or (ii) on the Initial Valuation Date, the relevant Auto-Call Valuation Date or the Valuation Date, as the case may be, such Index Sponsor or, if applicable, the Successor Index Sponsor, fails to calculate and announce the relevant Index Level (an "**Index Disruption**" and, together with an Index Modification and an Index Cancellation, each an "**Index Adjustment Event**"), then (A) in the case of an Index Modification or an Index Disruption, the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Preference Shares and, if so, shall calculate any relevant adjustment to the Conditions which may include, without limitation (i) an adjustment to any value, date, variable or other provision to take into account the relevant Index Adjustment Event, (ii) delaying the Initial Valuation Date, the relevant Auto-Call Valuation Date or the Valuation Date, as the case may be, until the relevant Index Adjustment Event no longer exists or (iii) determining the Index Level for such Index for each date following such change, failure or cancellation on which the Index Level is required for the purposes of the Preference Shares, using, in lieu of a published level for that Index, the level for that Index on such date as determined by the Calculation Agent in accordance with the formula for and method of calculating that

Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised such Index immediately prior to that Index Adjustment Event and (B) in the case of an Index Cancellation, the Company may, at any time thereafter, determine that all but not some only of the Preference Shares shall be redeemed in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*).

14. **Additional Disruption Events**

- (a) Following the occurrence of an Additional Disruption Event, the Calculation Agent will determine whether or not the Preference Shares shall continue or be redeemed early.
- (b) If the Calculation Agent determines that the Preference Shares shall continue, the Calculation Agent may make such adjustment as it considers appropriate, if any, to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment.
- (c) If the Calculation Agent determines that the Preference Shares shall be redeemed early, then the Company shall redeem all but not some only of the Preference Shares in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*).
- (d) Upon the occurrence of an Additional Disruption Event, the Company, or the Calculation Agent on behalf of the Company, shall give notice as soon as practicable to the Shareholders stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto **provided that** any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

"Additional Disruption Event" means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging.

"Change in Law" means that on or after the Issue Date, (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Company determines that (A) it has become illegal for the Company or the Hedging Counterparty to hold, acquire or dispose of any securities comprising any Index or it has become illegal for the Company or the Hedging Counterparty to hold, acquire, purchase, sell or maintain one or more (x) positions or contracts in respect of any securities, options, futures, derivatives or foreign exchange in relation to the Preference Shares, any Related Financial Product, or in relation to the Company's or the Hedging Counterparty's hedging activities in connection with the Preference Shares or any Related Financial Product (y) stock loan transactions in relation to the Preference Shares or any Related Financial Product or (z) other instruments or arrangements (howsoever described) held by the Company or the Hedging Company in order to hedge, individually or on a portfolio basis, the Preference Shares or any Related Financial Product relating to any Index or (B) the Company or any Hedging Counterparty will incur a materially increased cost in performing its obligations in relation to the Preference Shares or any Related Financial Product (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Company and/or any Hedging Counterparty).

"Hedging Disruption" means that the Company and/or any Hedging Counterparty is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Company issuing and performing its obligations with respect to the Preference Shares or of any obligor of a Related Financial Product issuing and performing its obligations with respect to a Related Financial Product, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Company and/or any Hedging Counterparty would incur a materially increased (as compared with circumstances existing on the Issue Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Company issuing and performing its obligations with respect to the Preference Shares or of any obligor of a Related Financial Product issuing and performing its obligations with respect to a Related Financial Product, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), **provided that** any such materially increased amount that is incurred solely due

to the deterioration of the creditworthiness of the Company and/or any Related Financial Product obligor shall not be deemed an Increased Cost of Hedging.

15. **Correction of Index Levels**

If the level of an Index published by the Index Sponsor at any time and used or to be used by the Calculation Agent for any calculation or determination under the Preference Shares is subsequently corrected and the correction is published by such Index Sponsor within one Settlement Cycle after the original publication, the Calculation Agent will make such adjustment as it determines to be appropriate, if any, to the settlement or payment terms of the Preference Shares to account for such correction **provided that** if any amount has been paid in an amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Preference Shares and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Company shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Shareholder, together with interest on that amount for the period from and including the day on which payment was originally made to (but excluding) the day of payment of reimbursement by the Shareholder (all as calculated by the Calculation Agent). Any such reimbursement shall be effected in such manner as the Company shall determine.

CALCULATION AGENT DISCLAIMERS

The Calculation Agent makes no express or implied representations or warranties as to (a) the advisability of investing in or obtaining exposure to the Preference Shares, (b) the value of the Preference Shares at any particular time on any particular date, or (c) any amounts that may become payable in respect of the Preference Shares. The Calculation Agent shall not act as agent or trustee for the holders of the Preference Shares or any Related Financial Product.

Without limiting any of the foregoing, in no event shall the Calculation Agent have any liability (whether in negligence or otherwise) to any Shareholders or Related Financial Product investors for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

In addition, to providing calculation agency services to the Company, the Calculation Agent or any of its Affiliates, may perform further or alternative roles relating to the Company and any series of Preference Shares. Furthermore, the Calculation Agent or any of its Affiliates may contract with the Company and/or enter into transactions which relate to the Company, the Preference Shares or the Indices and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities. Subject to all regulatory obligations, neither the Company nor the Calculation Agent in respect of the Preference Shares owes any duty or responsibility to any Shareholder or Related Financial Product investor to avoid any conflict or to act in the interest of any Shareholder or Related Financial Product investor.

Section B – Issuer		
B.1	Legal and commercial name of the Issuer:	The legal name of the issuer is HSBC Bank plc (the " Issuer ") and, for the purposes of advertising, the Issuer uses an abbreviated version of its name, HSBC.
B.2	Domicile and legal form of the	The Issuer is a public limited company registered in England and Wales under registration number 14259. The liability of its members is limited. The Issuer

	<p>Issuer, the legislation under which the Issuer operates and its country of incorporation:</p>	<p>was constituted by Deed of Settlement on 15 August 1836 and in 1873, registered under the Companies Act 1862 as an unlimited company. It was re-registered as a company limited by shares under the Companies Acts 1862 to 1879 on 1 July 1880. On 1 February 1982 the Issuer re-registered under the Companies Acts 1948 to 1980 as a public limited company.</p> <p>The Issuer is subject to primary and secondary legislation relating to financial services and banking regulation in the United Kingdom, including, <i>inter alia</i>, the UK Financial Services and Markets Act 2000, as amended, for the purposes of which the Issuer is an authorised person carrying on the business of financial services provision. In addition, as a public limited company, the Issuer is subject to the UK Companies Act 2006.</p>
<p>B.4b</p>	<p>Known trends affecting the Issuer and the industries in which it operates:</p>	<p>UK real Gross Domestic Product ("GDP") growth slowed from 0.7% quarter-on-quarter in the fourth quarter of 2016 to 0.2% in the first quarter of 2017. Real UK GDP was 2.0% higher than the same quarter a year earlier. The unemployment rate stood at 4.5% in May, a 42-year low. Employment as a percentage of the workforce stood at a record high of 74.9%. However, annual wage growth slowed to 2.1% in the three months to April. The annual rate of growth of the Consumer Price Index ("CPI") measure of inflation stood at 2.9% in May 2017. Activity in the housing market softened, with price growth moderating but remaining positive.</p> <p>The outlook remains uncertain following the UK electorate's vote to leave the European Union ("EU") and the invocation of Article 50 (triggering a two-year countdown to leaving) in March 2017. The annual pace of UK real GDP growth is now expected to slow from 1.8% in 2016 to 1.6% in 2017. Investment could be hit by uncertainty over the UK's future relationship with the EU, and the risk of leaving without a transition deal. CPI inflation is expected to continue to rise, reflecting the fall in sterling's value. Wages are not expected to grow as fast as inflation, meaning a decline in real incomes, which is expected to weigh on consumption. Offsetting this, net trade has started to improve on the back of the fall in sterling, and government spending may also prove supportive later in the year. Due to higher inflation, some members of the Monetary Policy Committee have already started to vote for rate rises. However, due to weaker growth and an uncertain outlook, the Bank of England base rate is expected to remain low until at least the end of 2018.</p> <p>The eurozone continues to exhibit modest growth. Real GDP grew by 0.6% in the first quarter of 2017, following growth of 0.4% and 0.5% in the third and fourth quarters of 2016, respectively. Among the four largest eurozone countries, Spain continues to out-perform, with quarterly growth of 0.8% in the first quarter of 2017. Germany grew by 0.6%, while France and Italy each experienced expansions of 0.4%. Household consumption has continued to grow steadily. Although inflation is higher than last year – hitting a 2% annual rate in February, compared to near-zero rates experienced in early 2016 – market sentiment remains firm and unemployment is falling. Investment has picked up sharply, with quarterly growth of 3.4% and 1.3% in the fourth quarter and first quarter respectively. Companies are now playing their part in the recovery as improved confidence and loose credit conditions are supporting investment. Meanwhile the political risks posed by elections in the Netherlands (March) and France (May) have receded.</p> <p>One possibility is that the eurozone is entering a virtuous circle where higher investment leads to faster productivity growth, rising incomes and improved confidence. But there is still reason for caution and HSBC Global Research expects GDP growth to accelerate from 1.7% in 2016 to 1.9% in 2017, before easing back to 1.6% in 2018.</p> <p>CPI inflation peaked at 2.0% in February but has already fallen back to 1.3% in June. With wage growth showing little sign of reacting to a strengthening labour market, the European Central Bank ("ECB") is maintaining its EUR60bn-a-</p>

		month quantitative easing ("QE") programme. HSBC Global Research expects the ECB to begin 'tapering' QE asset purchases in 2018, as the economy continues to recover. That will be preceded by German federal elections in September and, possibly, an early Italian election.

¹ In late 2016, a macro cash flow hedge was identified as not having met the hedge accounting criteria of IAS 39 during the half-year to 30 June 2016. The hedge was partially discontinued as a result. Profit before tax has been restated to reflect a gain of £134m that should have been transferred from the cash flow hedge reserve to the income statement during the half-year to 30 June 2016.

² Adjusted performance is computed by adjusting reported results for the effect of significant items as detailed on pages 8 to 10 of the Unaudited Consolidated Interim Report of the Issuer for the six month period ended 30 June 2017.

³ For the half-year ended 31 December 2016, the main adjustment was a £2.2bn impairment of goodwill relating to the Global Banking and Markets ("GB&M") business.

⁴ Net operating income before loan impairment charges and other credit risk provisions is also referred to as revenue.

⁵ The return on average total shareholders' equity is defined as profit attributable to shareholders of the parent company divided by the average total shareholders' equity.

⁶ Reported return on average risk-weighted assets ("RoRWA") is calculated using annualised reported profit before tax and reported average risk-weighted assets ("RWAs"). Adjusted RoRWA is calculated using adjusted profit before tax and reported average RWAs, adjusted for the effect of significant items.

⁷ Reported cost efficiency ratio is defined as total reported operating expenses reported divided by net reported operating income before loan impairment charges and other credit risk provisions, while adjusted cost efficiency ratio is defined as total adjusted operating expenses divided by net adjusted operating income before loan impairment charges and other credit risk provisions. Net adjusted operating income before loan impairment charges and other credit risk provisions is also referred to as adjusted revenue.

⁸ Adjusted jaws measures the difference between adjusted revenue and adjusted cost growth rates.

C.2	Currency of the securities issue:	The settlement currency of the Notes is GBP (the " Settlement Currency ").
C.5	Description of any restrictions on the free transferability of the securities:	The Notes are freely transferable. However, there are restrictions on the offer and sale of the Notes and the Issuer and HSBC Bank plc (the " Dealer ") have agreed restrictions on the offer, sale and delivery of the Notes and on distribution of offering materials in the European Economic Area (including the United Kingdom), Guernsey, Isle of Man, Jersey and the United States of America.
C.8	The rights attaching to the securities, including ranking and limitations to those rights:	<p><i>Status of the Notes:</i> The Notes issued will be direct, unsecured and unsubordinated obligations of the Issuer and will rank equally and without preference among themselves and, at their date of issue, with all other unsecured and unsubordinated obligations of the Issuer (unless preferred by law).</p> <p><i>Interest Payments:</i> The Notes will not be interest-bearing.</p> <p><i>Redemption of the Notes at Maturity:</i> The Notes will be redeemed on their maturity date, unless they are subject to early redemption.</p>

	<p>Early redemption of the Notes: In addition the Notes may be redeemed prior to their stated maturity in the following circumstances:</p> <p><i>For illegality:</i> at the option of the Issuer if the Calculation Agent determines that the performance of the Issuer's obligations has become unlawful or impracticable in whole or in part for any reason.</p> <p><i>For taxation reasons:</i> at the option of the Issuer if the Issuer were required under the terms and conditions of the Notes (the "Conditions") to pay additional amounts in respect of tax.</p> <p><i>For a Preference Share Early Redemption Event:</i> following the receipt by the Issuer or any of its affiliates of a notice from Eukairos Investments Limited (the "Preference Share Issuer") that the relevant series of preference shares issued by the Preference Share Issuer (the "Preference Shares") are to be redeemed early.</p> <p><i>For an Extraordinary Event and/or Additional Disruption Event:</i> at the option of the Issuer if the Calculation Agent determines that a merger event, tender offer or insolvency (each, an "Extraordinary Event") and/or change in law or insolvency filing (each, an "Additional Disruption Event") has occurred in relation to the Preference Shares and/or the Preference Share Issuer.</p> <p><i>For an Event of Default:</i> at the option of the Noteholder in the following circumstances: (i) a continuing default in the repayment of any amount due on the Notes for more than 14 days, provided that the reason for non-payment is not compliance with any fiscal or other law or regulation or court order, or that there is doubt as to the validity of such law, regulation or order in accordance with independent legal advice from advisers which is acceptable to HSBC Bank plc, acting in its capacity as principal paying agent (the "Principal Paying Agent"); or (ii) the passing of a winding-up order in relation to the Issuer.</p> <p>Payments of Principal: Payments of principal in respect of Notes will in all cases be calculated by reference to the percentage change in value of one or more Preference Shares issued by the Preference Share Issuer in respect of the relevant series of Notes. The terms of each series of Preference Shares will be contained in the Articles of Eukairos Investments Limited and the Preference Share terms and conditions relating to such series, which will be annexed to the Final Terms.</p> <p>The redemption price of each class of Preference Shares will be calculated by reference to an index or a basket of indices (the "Underlying"). The Underlying for the Notes is an index.</p> <p>Modification and substitution: Modifications to the Conditions may be made without the consent of any Noteholders provided that: (i) the modification is not materially prejudicial to the interest of Noteholders; (ii) the modification is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of the law of the Issuer's jurisdiction of incorporation; or (iii) the modification corrects an inconsistency between the Final Terms and the relevant termsheet relating to the Notes. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.</p> <p>No guarantee or security: The Notes are the obligations of the Issuer only and are unsecured.</p>
--	--

		<p>Taxation: All payments by the Issuer of any amount in respect of the Notes will be made without deduction of any taxes, duties and other similar charges, including United Kingdom taxes unless the Issuer is required by law to withhold or deduct any such taxes. Therefore, Noteholders will be liable for and/or subject to any taxes, duties and other similar charges, including withholding tax, stamp duty, stamp duty reserve tax and/or similar transfer taxes, payable in respect of the Notes.</p> <p>Governing Law: English law.</p>
C.9	<p>The rights attaching to the securities, the nominal interest rate, the date from which interest becomes payable and due dates for interest, where the rate is not fixed a description of the underlying on which it is based, maturity date and arrangements for amortisation of the loan including repayment procedures, an indication of yield and the name of the representative of debt security holders:</p>	<p>The Notes will be issued on 20th April 2018 (the "Issue Date") at 100 per cent. of their aggregate principal amount (the "Issue Price"). C.15	<p>Description of how the value of the investment is affected by the value of the underlying instrument:</p>	<p>The performance of an Underlying determines the redemption price and final value of a series of Preference Shares issued by Eukairos Investments Limited, a company incorporated in England which is independent of the Issuer and whose business consists of the issuance of Preference Shares.</p> <p>The percentage change in the final value of the relevant Preference Share compared to its issue price is then used to calculate the value and return on the Notes.</p> <p>As a result, the potential effect of the value of the Underlying on the return on the Notes means that investors may lose some or all of their investment.</p> <p>For the avoidance of doubt, the Notes are not backed by or secured on the Preference Shares and, accordingly, only a nominal amount of the Preference Shares may be issued by Eukairos Investments Limited regardless of the principal amount of the Notes issued by the Issuer.</p> <p>In this section, for ease of explanation rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Underlying,</p>

	<p>the Notes (including the return on the Notes) are described as being linked to the Underlying.</p> <p>The redemption amount of the Notes is linked to the performance of the <i>FTSE™ 100 Index</i> ("Index").</p> <p>A Noteholder will be entitled to the following cash amounts in respect of each Note, namely:</p> <ul style="list-style-type: none"> • if the Notes are redeemed on their stated maturity date, a "Final Redemption Amount"; or • as the Notes are "Autocallable Redemption Notes", if the Notes are redeemed prior to their stated maturity in the circumstances described below, an "Early Redemption Amount". <p>The basis for calculating the Final Redemption Amount is:</p> <p>"Autocallable Redemption Notes". Accordingly, a Noteholder is entitled to an amount per Note equal to the principal amount of the Note multiplied by the following:</p> <p>If Index Performance is equal to or greater than the Final Trigger Level, then 133.00%</p> <p>If Index Performance is less than the Final Trigger Level, and</p> <ul style="list-style-type: none"> • Final Index Level is equal to or greater than the Barrier Level, then 100% • Final Index Level is less than the Barrier Level, then Index Performance <p>For the purposes of the above:</p> <p>"Barrier Level" means 50%, being the percentage against which the performance of the Index will be measured in order to determine the Final Redemption Amount.</p> <p>"Final Trigger Level" means 80% being a percentage against which the performance of the Index will be measured in order to determine the Final Redemption Amount.</p> <p>"Index Performance" means in respect of an Index the percentage appreciation or depreciation of level of such Index compared to the initial index level for such Index which is specified in the relevant Final Terms.</p> <p>"Initial Index Level" means in respect of an Index the initial level of such Index on the initial valuation date.</p> <p>"Final Index Level" means in respect of an Index the final level of such Index on the valuation date.</p> <p>In addition, as the Notes are Autocallable Redemption Notes, they may be redeemed in the following circumstances and Noteholders would then receive an Early Redemption Amount calculated as follows:</p> <p>If on an Auto-Call Valuation Date, the Index Performance is equal to or greater than the Auto-Call Trigger Level specified below, then the Noteholder would be entitled to a cash amount equal to the principal amount of the Note multiplied by the Auto-Call Trigger Rate, specified below.</p> <p>For these purposes:</p> <p>"Auto-Call Trigger Level" means each of the percentages set out below which will trigger redemption of the Notes and entitles Noteholders to the Early Redemption Amount; and</p> <p>"Auto-Call Trigger Rate" means each of the percentages set out below, being in each case a fixed percentage of the principal amount of a Note which a</p>

C.17	Settlement procedure:	All payments to Noteholders will be paid through CREST																		
C.18	Return on securities:	<p>The Notes do not bear interest.</p> <p>The Notes entitle holders to cash payments and do not entitle a Noteholder to physical delivery of Preference Shares.</p> <p>Unless redeemed early, the Notes will be automatically redeemed on the Maturity Date, at which time the Noteholder will be entitled to receive the Final Redemption Amount (if any).</p>																		
C.19	Exercise price or final reference price of the underlying:	<p>The performance of an underlying index or the worst performing index in a basket of indices determines the redemption price of a series of Preference Shares. Such redemption price is used to calculate the final value of such Preference Shares. The percentage change in the final value of the Preference Shares compared to its issue price is then used to calculate the return on the Notes. As a result, the potential effect of the value of the Index or Indices on the return on the Notes means that investors may lose some or all of their investment.</p>																		

		The calculations which are required to be made to calculate the Final Redemption Amount and any early redemption amount, will be based on the level of the Index or the level of the worst performing of the Indices comprised in a basket of Indices (the " Index Level ") determined by the Calculation Agent being HSBC France. The Calculation Agent will determine the Index Level by reference to the level of the relevant Index quoted on a particular exchange or quotation system at a valuation time.
C.20	Type of the underlying:	<p>The underlying for the Notes is one index, namely the FTSE™ 100 Index</p> <p>Information on the Index can be found at the websites of Financial Times Limited</p> <p>In this section, for ease of explanation rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Index. Notes (including the return on the Notes) are described as being linked to the Index.</p>
Section D – Risks		
D.2	Key risks specific to the Issuer:	<p><i>A description of the key risk factors relating to the Issuer that may affect the ability of the Issuer to fulfill its obligations to investors in relation to any of its debt or derivative securities is set out below.</i></p> <p><i>Current economic and market conditions could materially adversely affect the Issuer:</i></p> <p><i>The Issuer's earnings are affected by global and local economic and market conditions. Uncertain and at times volatile economic conditions can create a challenging operating environment for financial services companies such as the Issuer, including challenges arising from any of the following: reduced demand for borrowing from creditworthy customers; the imposition of protectionist measures; renewed stress as subdued economic conditions raise asset quality concerns, and uncertainties about the EU bank resolution regime raise funding costs; a prolonged period of low or negative interest rates constraining the amount of the Issuer's net interest income; market disruption adversely affecting funding transactions and the Issuer's ability to borrow from other financial institutions; subdued economic growth and/or asset valuation bubbles as a result of too rapid growth.</i></p> <p><i>The UK's withdrawal from the EU may adversely affect the Issuer's operating model and financial results:</i></p> <p>The UK electorate's vote to leave the EU may have a significant impact on general macroeconomic conditions in the UK, the EU and globally, and is likely to usher in a prolonged period of uncertainty. Negotiations of the UK's exit agreement, its future relationship with the EU and its trading relationships with the rest of the world will likely take a number of years to resolve. The period of uncertainty and market volatility that followed the UK's decision to leave the EU is likely to continue until the UK's future relationship with the EU and the rest of the world is clearer. Given the timeframe and the complex negotiations involved, a clearer picture is not expected to emerge for some time.</p> <p>Uncertainty as to the precise terms of these arrangements, and the future legal and regulatory landscape, may lead to uncertain economic conditions, market volatility and currency fluctuations. Among other issues, the UK's future relationship with the EU may have implications for the future business model for the Issuer's London-based European cross-border banking operations, which relies on unrestricted access to the European financial services market.</p> <p><i>The Issuer's parent company is subject to regulatory commitments and consent orders:</i></p> <p>HSBC Holdings is subject to a deferred prosecution agreement with the US Department of Justice and related agreements and consent orders with US and UK government agencies to comply with certain remedial measures with respect to the HSBC Group's anti-money laundering and sanctions compliance</p>

programmes, including the appointment of an independent compliance monitor. Failure to comply with the terms of such agreements may have a material adverse effect on the Group, including loss of business and withdrawal of funding, restrictions on performing dollar-clearing functions, or revocation of bank licences.

UK banking structural reform legislation and proposals could materially adversely affect the Issuer:

Material changes to the corporate structure and business activities of the Issuer, including the establishment of a separate ring-fenced bank for retail banking activities, are expected pursuant to UK banking structural reform legislation and proposals. The restructuring will involve the transfer of qualifying components of the Issuer's UK Retail Banking and Wealth Management, Commercial Banking and Global Private Banking businesses from the Issuer to a new legal entity, HSBC UK. The Issuer expects the cost of implementing these plans to be material. In addition to the restructuring costs, the Issuer will have a reduced balance sheet, including a reduction in risk-weighted assets, and a reduced and potentially more volatile revenue stream. These structural changes could result in changes to the Issuer's credit rating and increases in its cost of funding.

The Issuer is subject to a number of legal and regulatory actions and investigations:

The Issuer is subject to a number of legal and regulatory actions and investigations, the outcomes of which are inherently difficult to predict. An unfavourable result in one or more of these could result in the Issuer incurring significant expense, substantial monetary damages, loss of significant assets, other penalties and injunctive relief, potential regulatory restrictions on the Issuer's business and/or a negative effect on the Issuer's reputation.

Unfavourable legislative or regulatory developments, or changes in the policy of regulators or governments could materially adversely affect the Issuer:

The Issuer's businesses are subject to ongoing regulation and associated regulatory risks, including the effects of changes in the laws, regulations, policies, guidance, voluntary codes of practice and their interpretations in the UK, the EU and the other markets in which the Issuer operates. This is particularly so in the current environment, where the Issuer expects government and regulatory intervention in the banking sector to remain high for the foreseeable future.

The Issuer is subject to the substance and interpretation of tax laws in the jurisdictions in which it and members of the Group operate:

The Issuer is subject to the substance and interpretation of tax laws in all countries in which it and members of the Group operate, the risk associated with changes in tax law or in the interpretation of tax law, the risk of changes in tax rates and the risk of consequences arising from failing to comply with procedures required by tax authorities.

The Issuer's operations are highly dependent on its information technology systems:

The reliability and security of the Issuer's information and technology infrastructure and the Issuer's customer databases are crucial to maintaining the service availability of banking applications and processes and to protecting the HSBC brand. Critical systems failure, prolonged loss of service, cyber-attacks, or internet crime or a material breach of security could lead to financial loss and cause damage to the Issuer's business and brand.

The Issuer's operations have inherent reputational risk:

Reputational risk may arise from negative public opinion about the actual or perceived manner in which the Issuer conducts its business activities, its financial performance, as well as actual or perceived practices in banking and the financial services industry generally. Negative public opinion may

		<p>adversely affect the Issuer's ability to keep and attract customers and, in particular, corporate and retail depositors, and retain and motivate staff which in turn could have a material adverse effect on the Issuer.</p> <p><i>The Issuer has significant exposure to counterparty risk:</i></p> <p>The Issuer's ability to engage in routine transactions to fund its operations and manage its risks could be materially adversely affected by the actions and commercial soundness of other financial services institutions. Financial services institutions are necessarily interdependent because of trading, clearing, counterparty or other relationships, which could affect a financial services institution's funding and its ability to manage the risks of its business.</p> <p><i>Market fluctuations may reduce the Issuer's income or the value of its portfolios:</i></p> <p>The Issuer's businesses are exposed to changes in, and increased volatility of, interest rates, inflation rates, credit spreads, foreign exchange rates, commodity, equity, bond and property prices and the risk that the Issuer's customers act in a manner inconsistent with its business, pricing and hedging assumptions. It is difficult to predict with any accuracy changes in market conditions, and such changes could have a material adverse effect on the Issuer.</p> <p><i>Liquidity, or ready access to funds, is essential to the Issuer's business:</i></p> <p>If the Issuer is unable to raise funds, its liquidity position could be adversely affected and the Issuer might be unable to meet deposit withdrawals or obligations under committed financing facilities and insurance contracts, to fund new loans, investments and businesses or to repay borrowings as they mature.</p> <p><i>Any reduction in the credit rating of the Issuer or any of its debt securities could affect the availability of the Issuer's funding and affect its liquidity position and interest margins:</i></p> <p>Credit ratings affect the cost and other terms upon which the Issuer is able to obtain market funding. Rating agencies regularly evaluate the Issuer, as well as its respective debt securities. There can be no assurance that the rating agencies will maintain the Issuer's current ratings or outlook. Any reductions in these ratings and outlook could increase the cost of the Issuer's funding, limit access to capital markets and require additional collateral to be placed.</p>
D.6	<p>Key risks specific to the securities and risk warning to investors:</p>	<p><i>Credit risk:</i> The Notes are direct, unsecured and unsubordinated obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (the Issuer's credit risk). If the Issuer becomes insolvent or defaults on its obligations under the Notes, in the worst case scenario, investors in the Notes could lose all of their invested amounts. In addition, the Notes are also subject to the credit risk of the Preference Share Issuer. If the Preference Share Issuer becomes insolvent there could be a risk that the Preference Shares are redeemed worthless and therefore the value of the Notes would become zero as well. In such worst case scenario Noteholders would lose all of their invested amount.</p> <p><i>The Notes are unsecured obligations:</i> The Notes are not secured over any asset. Therefore, the Noteholder would not be able to enforce security as a method of recouping payments due under the Notes if the Issuer were to become insolvent and cease to be able to pay such amounts.</p> <p><i>The Notes are not ordinary debt securities:</i> The Notes do not pay interest, and, upon redemption, either the Notes may return less than the amount invested or nothing.</p> <p><i>No ownership rights:</i> The Notes do not confer any legal or beneficial interest or any voting or dividend rights in the Preference Shares or the securities underlying the Index or Indices.</p>

	<p><i>There may be no active trading market or secondary market for liquidity for Notes:</i> Any Series of Notes may not be widely distributed and there may not be an active trading market, nor is there assurance as to the development of an active trading market. If there is no liquid market, Noteholders may not be able to realise their investment in the Notes until maturity of such Notes or may not realise a return that equals or exceeds the purchase price of their Notes.</p> <p><i>Illegality or changes in tax law may cause the Issuer's obligations under the Notes to be redeemed early:</i> If the Calculation Agent determines the performance of the Issuer's obligations under any Notes shall have become unlawful or impracticable, or if the Issuer determines that it has become liable for, or payments under the Notes have become subject to, any taxes, the Issuer may redeem the Notes and pay a sum determined by reference to the value of the Preference Shares at the time of such redemption. As a result, Noteholders will forgo any future appreciation in the underlying Index or Indices and may suffer a loss of some or all of their investments.</p> <p><i>Considerations regarding hedging:</i> The value of the Notes may not exactly correlate with the value of the Index or Indices to which the Notes relate.</p> <p><i>Applicable Bank Resolution Powers:</i> The Issuer is subject to the Banking Act 2009 which implements the BRRD in the UK and gives wide powers in respect of UK banks and their parent and other group companies to HM Treasury, the Bank of England, the Prudential Regulation Authority and the United Kingdom Financial Conduct Authority (each, a "relevant UKRA") in circumstances where a UK bank has encountered or is likely to encounter financial difficulties. These powers include a "bail-in" power, which gives the relevant UKRA the power to cancel all or a portion of the principal amount of, or interest on, certain unsecured liabilities (which could include the Notes) of a failing financial institution, to convert certain debt claims (which could be amounts payable under the Notes) into another security (including common shares), or alter the terms of such liabilities, including their maturity or the date on which interest becomes payable, including by suspending payments for a temporary period. The exercise by the relevant UKRA of any of its powers under the Banking Act 2009 (including especially the bail-in power) could lead to the holders of the Notes losing some or all of their investment or may adversely affect the rights of holders of the Notes, the market value thereof or the Issuer's ability to satisfy its obligations thereunder.</p> <p><i>Taxation:</i> All payments under the Notes will be made without deduction of United Kingdom taxes, duties or other similar charges unless otherwise required. Noteholders should therefore be aware that they may be subject to taxes, duties or other similar charges in respect of transactions involving Notes depending, amongst other things, upon the status of the potential purchaser and laws relating to transfer and registration taxes.</p> <p><i>Capital risks relating to Notes:</i> The Notes are not principal protected and accordingly the repayment of any amount invested in Notes and any return on investment is not guaranteed. As a result the investors' capital can fall below the amount initially invested. Unlike a savings account or similar investment, an investment in the Notes is not covered by the UK Financial Services Compensation Scheme.</p> <p><i>Certain factors affecting the value and trading price of Notes:</i> Amounts payable under the Notes may be affected by fluctuations in the value of an Index or securities underlying an Index, changes in interest rates, time remaining to redemption and dividend rates on the securities underlying an Index.</p> <p><i>Conflicts of interest may arise between the Issuer or its affiliates and the Noteholders:</i> The Issuer or its affiliates may enter into hedging or other transactions (i) relating to an Index or to securities underlying an Index or (ii) with issuers of securities underlying an Index. The Issuer or its affiliates may also publish research or other reports relating to Indices or securities underlying</p>

	<p>an Index. Any such activities may have a positive or negative effect on the value of Notes relating to such Indices. In addition, the Issuer may assume roles as hedging counterparty or calculation agent under the Notes. In respect of any of these roles the Issuer may have interests that conflict with the interests of Noteholders.</p> <p>Furthermore, HSBC Bank plc or HSBC France is the calculation agent in respect of the Notes and also acts as calculation agent in respect of the Preference Shares. As a result of this relationship, potential conflicts of interest may arise for HSBC Bank plc and HSBC France in acting in their respective capacities. HSBC France or HSBC Bank plc may contract with the Preference Share Issuer and/or enter into transactions, including hedging transactions, which relate to the Preference Share Issuer or the Preference Shares. In respect of any of these roles HSBC Bank plc and HSBC France may have interests that conflict with the interests of Noteholders.</p> <p>Calculation Agent's discretion and valuations: Calculation of amounts payable in respect of redemption of the Notes may be made by reference to levels published on exchanges or other quotation systems and, in the absence of such display, at an amount determined by the Calculation Agent acting in good faith and a commercially reasonable manner. The Calculation Agent may be permitted to use its proprietary models to set the terms of adjustments which may be made under the Notes which may be difficult to verify without expertise in valuation models.</p> <p>Commission and cost of hedging: The Issue Price of the Notes may include the distribution commission or fee charged by Issuer and/or its affiliates and the cost or expected costs of hedging the Issuer's obligations under the Notes (if any). Accordingly, there is a risk that, upon issue the price of Notes in the secondary market would be lower than the original Issue Price of the Notes.</p> <p>Exchange rate risks: The Issuer will pay amounts in respect of the Notes in the Settlement Currency. Where the Settlement Currency is not the same as the Noteholder's preferred currency, the realisable value of the investment in the Noteholder's preferred currency may be at risk from fluctuations in the exchange rate.</p> <p>Extraordinary Event: If the Calculation Agent determines that a Merger Event (as defined in the Conditions) or Tender Offer (as defined in the Conditions) has occurred in relation to the Preference Shares or Insolvency (as defined in the Conditions) has occurred in relation to the Company, the Issuer may elect to redeem the Notes. If the Issuer elects to redeem the Notes, Noteholders may suffer a loss of some or all of their investments.</p> <p>Market Disruption Events and Additional Disruption Events: A change in law or an insolvency filing in relation to the Preference Share Issuer may cause the Notes to be redeemed early and may have an adverse effect on the value of such Notes. As a result, Noteholders may suffer a loss of some or all of their investments.</p> <p>The value of the Notes is determined by reference to the performance of Preference Shares and any early redemption of the Preference Shares will result in the Notes being redeemed early. Therefore, in the case of early closure of the relevant exchange, disruption of such exchange or suspension of trading on such exchange ("Market Disruption Events") or a change in laws, hedging disruption or an increased cost of hedging ("Additional Disruption Events") or in case of an index cancellation or modification or disruption in the publication of the index (each, an "Index Adjustment Event"), postponement or adjustment of valuations (in the case of a Market Disruption Event) or adjustment of terms or redemption of the Preference Shares (in case of an Additional Disruption Event or Index Adjustment Event in respect of such Preference Shares) may have an adverse effect on the value of such Notes. As a result, Noteholders may suffer a loss of some or all of their investments.</p>
--	--

		<p>Preference Share Early Redemption Event: If the Preference Shares are redeemed early, the Issuer shall redeem all of the Notes. Accordingly, if the Notes are redeemed prior to the maturity date, the Noteholders may suffer a loss of some or all of their investment and will forego any future appreciation in the relevant Index or Indices that may occur following such redemption.</p> <p>Investors may lose the value of their entire investment or part of it, as the case may be.</p>

The Issuer or its affiliates may from time to time advise the issuer or obligors of securities underlying, or publish research reports relating to, the Index. The views or advice may have a positive or negative effect on the value of the Index and may be inconsistent with purchasing or holding the Notes relating to the Index.</p> <p>Furthermore, HSBC Bank plc or HSBC France is the calculation agent in respect of Notes and also acts as calculation agent in respect of the Preference Shares.
