What are the key risks that are specific to the Issuer?

Impact of COVID-19. The COVID-19 outbreak has had, and continues to have, a material impact on businesses around the world and the economic environments in which they operate. A prolonged period of significantly reduced economic activity as a result of the impact of the COVID-19 outbreak would have a material adverse effect on the Issuer's financial condition, results of operations, prospects, liquidity, capital position and credit ratings.

The UK's withdrawal from the EU may adversely affect the Issuer's operating model and financial results: The modalities of the United Kingdom's ("UK") exit from the European Union ("EU") on 31 January 2020 and the scheduled end of the transition period on 31 December 2020 will likely have a significant impact on general economic conditions in the UK and the EU. The UK's future relationship with the EU and its trading relationships with the rest of the world will likely take a number of years to resolve. This may result in a prolonged period of uncertainty, unstable economic conditions and market volatility, including currency fluctuations. The Issuer also expects the UK's withdrawal to have implications for the Issuer's London-based cross-border operations, to the extent they rely on unrestricted access to the European financial services market. The exact impact on the Issuer's clients will depend on their individual circumstances and, in a worst-case scenario, could include disruption to the provision of products and services.

The Issuer is likely to be affected by global geopolitical trends, including the risk of government intervention: While economic globalisation appears to remain deeply embedded in the international system, it is increasingly challenged by nationalism and protectionism, and international institutions may be less capable of arresting this trend. The Issuer's geographic coverage will make it and its customers susceptible to protectionist measures taken by national governments and authorities, including imposition of trade tariffs, restrictions on market access, restrictions on the ability to transact on a cross-border basis, expropriation, restrictions on international ownership, interest rate caps, limits on dividend flows and increases in taxation.

The Issuer may not manage risks associated with the replacement of benchmark indices effectively: The expected discontinuation of certain key inter-bank rates such as the London Interbank Offered Rate ("Libor"), and the adoption of replacement risk-free benchmark rates ("RFRs") by the market, and the development of alternate RFR products by the Issuer, introduce a number of risks for the Issuer, its clients, and the financial services industry more widely. Such risks include legal risks, financial risks, pricing risks, operational risks and conduct risks.

The Issuer could incur losses or be required to hold additional capital as a result of model limitations or failure: Regulatory scrutiny and supervisory concerns over banks' use of models is considerable, particularly the internal models and assumptions used by banks in the calculation of regulatory capital. If regulatory approval for key capital models is not achieved in a timely manner, the Issuer could be required to hold additional capital.

The Issuer remains susceptible to a wide range of cyber risks that impact and/or are facilitated by technology: The threat from cyber-attacks remains a concern for the Issuer's organisation, and failure to protect the Issuer's operations from internet crime or cyber-attacks may result in financial loss, business disruption and/or loss of customer services and data or other sensitive information that could undermine its reputation and its ability to attract and keep customers.

The Issuer may suffer losses due to employee misconduct: It is not always possible to deter employee

misconduct and the precautions the Issuer takes to prevent and detect this activity may not always be effective.

SECTION C – KEY INFORMATION ON THE NOTES

What are the main features of the Notes?

- (a) The Notes do not bear interest.
- (b) *Redemption Amounts.* Payments of principal in respect of Notes will in all cases be calculated by reference to the percentage change in value of one or more Preference Shares issued by the Preference Share Issuer in respect of the relevant series of Notes. The redemption price of each class of Preference Shares will be calculated by reference to an index (the "**Index**").

For the avoidance of doubt, the Notes are not backed by or secured on the Preference Shares and, accordingly, only a nominal amount of the Preference Shares may be issued by the Preference Share Issuer regardless of the principal amount of the Notes issued by the Issuer.

In this section, for ease of explanation, rather than refer to the Notes being linked to the value of the Preference Share which is in turn linked to the Index, the Notes (including the return on the Notes) are described as being linked to the Index.

A Noteholder will be entitled to the following cash amounts in respect of each Note, namely:

- if the Notes are redeemed on their stated maturity date, a "**Final Redemption Amount**"; or
- as the Notes are "**Autocallable Redemption Notes**", if the Notes are redeemed prior to their stated maturity in the circumstances described below, an "**Early Redemption Amount**".

The Final Redemption Amount will be an amount per Note equal to the principal amount of the Note multiplied by the following:

If Index Performance is equal to or greater than the Final Trigger Level, then 142%

If Index Performance is less than the Final Trigger Level, and

- Final Index Level is equal to or greater than the product of the Initial Index Level and the Barrier Level, then 100%; or
- Final Index Level is less than the product of the Initial Index Level and the Barrier Level, then Index Performance

"**Barrier Level**" means 65%, being the percentage against which the performance of the Index will be measured in order to determine the Final Redemption Amount.

"**Final Index Level**" means in respect of an Index the final level of such Index on the valuation date.

"**Final Trigger Level**" means 100%, being a percentage against which the performance of the Index will be measured in order to determine the Final Redemption Amount.

"**Index Performance**" means in respect of an Index the percentage appreciation or depreciation of the Final Index Level compared to its Initial Index Level.

"**Initial Index Level**" means in respect of an Index the initial level of such Index on the initial valuation date.

In addition, as the Notes are **Autocallable Redemption Notes**, they may be redeemed if on an Auto-Call Valuation Date, the Index Performance is equal to or greater than the Auto-Call Trigger Level specified below. In such circumstances the Noteholder would be entitled to an **Early Redemption Amount**, being a cash amount equal to the principal amount of the Note multiplied by the Auto-Call Trigger Rate, specified below.

For these purposes:

"**Auto-Call Trigger Level**" means each of the percentages set out below which will trigger redemption of the Notes and entitles Noteholders to the Early Redemption Amount; and

"**Auto-Call Trigger Rate**" means each of the percentages set out below, being in each case a fixed percentage of the principal amount of a Note which a Noteholder will receive in the event of an Early Redemption for Autocallable Redemption Notes.

- (c) The Notes are series 1871, tranche 1 and will be initially represented by a temporary global note exchangeable for a permanent global note, which is exchangeable for definitive notes only in limited circumstances specified in the permanent global note, deposited with common depository (or its nominee) for Euroclear Bank SA/NV ("**Euroclear**") and/or Clearstream Banking, S.A. ("**Clearstream, Luxembourg**"). The ISIN of the Notes is XS2295969187.

(d) The settlement currency of the Notes is GBP (the "**Settlement Currency**"). The aggregate principal amount of the Notes to be issued is Up to GBP 25,000,000. The denomination of the Notes is GBP 1.00. The Maturity Date of the Notes is 06 April 2027.

(e) Rights attaching to the Notes:

Early Redemption: The Notes may be redeemed prior to their stated maturity in the following circumstances:

- *For illegality:* at the option of the Issuer if the Calculation Agent determines that the performance of the Issuer's obligations has become unlawful or impracticable in whole or in part for any reason.
- *For taxation reasons:* at the option of the Issuer if the Issuer were required under the terms and conditions of the Notes (the "**Conditions**") to pay additional amounts in respect of tax.
- *For a Preference Share Early Redemption Event:* following the receipt by the Issuer or any of its affiliates of a notice from UKSED3P Investments Limited (the "**Preference Share Issuer**") that the relevant series of preference shares issued by the Preference Share Issuer (the "**Preference Shares**") are to be redeemed early.
- *For an Extraordinary Event and/or Additional Disruption Event:* at the option of the Issuer if the Calculation Agent determines that a merger event, tender offer or insolvency (each, an "**Extraordinary Event**") and/or change in law or insolvency filing (each, an "**Additional Disruption Event**") has occurred in relation to the Preference Shares and/or the Preference Share Issuer.
- *For an Event of Default:* at the option of the Noteholder in the following circumstances: (i) a continuing default in the repayment of any amount due on the Notes for more than 14 days, **provided that** the reason for non-payment is not compliance with any fiscal or other law or regulation or court order, or that there is doubt as to the validity of such law, regulation or order in accordance with independent legal advice from advisers which is acceptable to HSBC Bank plc, acting in its capacity as principal paying agent (the "**Principal Paying Agent**"); or (ii) the passing of a winding-up order in relation to the Issuer.

Modification and substitution: Modifications to the Conditions may be made without the consent of any Noteholders **provided that:** (i) the modification is not materially prejudicial to the interest of Noteholders; (ii) the modification is of a formal, minor or technical nature or is made to correct a manifest error or to comply with mandatory provisions of the law of the Issuer's jurisdiction of incorporation; or (iii) the modification corrects an inconsistency between the Final Terms and the relevant termsheet relating to the Notes. The Notes permit the substitution of the Issuer with an affiliate without the consent of any Noteholders where the Issuer provides an irrevocable guarantee of the affiliate's obligations.

Meetings of Noteholders - The Conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

Taxation - All payments by the Issuer of any amount in respect of the Notes will be made without deduction of any taxes, duties and other similar charges, including United Kingdom taxes unless the Issuer is required by law to withhold or deduct any such taxes. Noteholders may be liable for and/or subject to any taxes, duties and other similar charges, including withholding tax, stamp duty, stamp duty reserve tax and/or similar transfer taxes, payable in respect of the Notes.

(f) The Notes will be direct, unsecured and unsubordinated obligations of the Issuer and will rank equally and without preference among themselves and, at their date of issue, with all other unsecured and unsubordinated obligations of the Issuer (unless preferred by law). The exercise by HM Treasury, the Bank of England, the Prudential Regulation Authority and the United Kingdom Financial Conduct Authority (as applicable) of any powers under the Banking Act 2009 (including especially the bail-in power) could lead to the holders of the Notes losing some or all of their

investment or may adversely affect the rights of holders of the Notes, the market value thereof or the Issuer's ability to satisfy its obligations thereunder.

- (g) The Notes are freely transferable. However, there are restrictions on the offer and sale of the Notes. The Issuer and HSBC Bank plc, 8 Canada Square, London E14 5HQ (the "**Dealer**") have agreed restrictions on the offer, sale and delivery of the Notes and on distribution of offering materials in European Economic Area (including the United Kingdom), Guernsey, Isle of Man, Jersey and the United States of America.

In addition, investors of the Notes, by their purchase of the Notes, will be deemed to have given certain representations, warranties, undertakings, acknowledgements and agreements

Where will the Notes be traded?

Application will be made to admit the Notes to the Official List of the United Kingdom Financial Conduct Authority and to trading on the regulated market of the London Stock Exchange plc.

What are the key risks specific to the Notes

The Notes are direct, unsubordinated and unsecured obligations of the Issuer and not of any other person. If the Issuer's financial position were to deteriorate, there could be a risk that the Issuer would not be able to meet its obligations under the Notes (the Issuer's credit risk), and investors would not be able to enforce security as a method of recouping payments due under the Note. In addition, the Notes are also subject to the credit risk of the Preference Share Issuer. If the Preference Share Issuer becomes insolvent there could be a risk that the Preference Shares are redeemed worthless and therefore the value of the Notes would become zero as well. In such worst case scenario Noteholders would lose all of their invested amount.

The Notes are not ordinary debt securities and investors are exposed to the risks relating to the Preference Shares and Index or Indices. The Notes do not pay interest and, depending on the performance of the Preference Shares and Index or Indices as well as certain other factors (including changes in currency exchange rates, changes in interest rates, time remaining to redemption, economic and market conditions, dividend rates on the securities underlying an Index), may upon redemption return less than the amount invested or nothing.

An investment in the Notes is not equivalent to an investment in the Preference Shares or the securities underlying the Index or Indices. Ownership of the Notes does not confer any legal or beneficial interest or any voting or dividend rights in the Preference Shares or the securities underlying the Index or Indices and the value of the Notes may not exactly correlate with the value of the Index or Indices to which the Notes relate.

Extraordinary Event. If the Calculation Agent determines that a Merger Event (as defined in the Conditions) or Tender Offer (as defined in the Conditions) has occurred in relation to the Preference Shares or Insolvency (as defined in the Conditions) has occurred in relation to the Company, the Issuer may elect to redeem the Notes. If the Issuer elects to redeem the Notes, Noteholders may suffer a loss of some or all of their investments.

Preference Share Early Redemption Event. If the Preference Shares are redeemed early, the Issuer shall redeem all of the Notes. Accordingly, if the Notes are redeemed prior to the maturity date, the Noteholders may suffer a loss of some or all of their investment and will forego any future appreciation in the relevant Index or Indices that may occur following such redemption.

Market Disruption Events and Additional Disruption Events. Upon the occurrence of certain events (including an early closure of the relevant exchange, disruption of such exchange or suspension of trading on such exchange ("**Market Disruption Events**"), a change in laws, hedging disruption or an increased cost of hedging ("**Additional Disruption Events**"), an index cancellation or modification or disruption in the publication of the Index (each, an "**Index Adjustment Event**") or certain events relating to the administrator(s) of the Index ("**Administrator/Benchmark Event**")), valuations under the Preference Shares may be subject to postponement or adjustment (in the case of a Market Disruption Event) or terms of the Preference Share may be subject to adjustment or the Index may be replaced with an alternative benchmark (in the case of an Administrator/Benchmark Event) and/or Preference Shares may be subject to redemption (in the case of an Additional Disruption Event or Index Adjustment Event or an Administrator/Benchmark Event). As the value of the Notes is determined by reference to the performance

of Preference Shares and any early redemption of the Preference Shares will result in the Notes being redeemed early, any such postponement, adjustment or redemption or may have an adverse effect on the value of such Notes. As a result, Noteholders may suffer a loss of some or all of their investments.

Illegality or changes in tax law may cause the Notes to be redeemed early. In such circumstances, the Issuer may pay a sum determined by reference to the value of the Preference Shares at the time of such redemption. As a result holders of Notes will forgo any future appreciation in the relevant Index or Indices and may suffer a loss of some or all of their investments.

Commission, cost of hedging and taxes may be borne by Noteholders. The Issue Price of the Notes may include fees, commission and hedging costs. Payments under the Notes may be decreased to take into account the effect of taxes, duties or other similar charges and Noteholders will bear the cost of all taxes, duties or other similar charges payable in connection with the subscription, purchase or holding of such Note and any payments under the Notes (in each case including any taxes or duties imposed or increased by a change of tax law or practice).

SECTION D – KEY INFORMATION ON THE OFFER AND/OR THE ADMISSION TO TRADING ON A REGULATED MARKET

Under which conditions and timetable can I invest in this security?

An offer of this Tranche of Notes may be made by HSBC Bank plc and Meteor Asset Management Ltd (together with HSBC Bank plc, the "**Initial Authorised Offerors**") other than pursuant to Article 1(4) of the Prospectus Regulation in the United Kingdom only (the "**Public Offer Jurisdiction**") during the period from and including 10 February 2021 until but excluding 19 March 2021 (the "**Offer Period**"). The Issuer may close the Offer Period prior to 19 March 2021 if the Notes are fully subscribed before such date. The Offer Price of the Notes is the Issue Price.

Why is this Prospectus being produced?

The Prospectus has been prepared solely in connection with a public offer of Notes and the admission of Notes to trading on a regulated market pursuant to the Prospectus Regulation.

Use of Proceeds: The net proceeds from the issue of Notes will be used by the Issuer for profit making or risk hedging purposes.

Conflicts of Interest: The Issuer and/or its affiliates may enter into hedging or other transactions (i) relating to an Index or to securities underlying an Index or (ii) with issuers of securities underlying an Index. The Issuer or its affiliates may also publish research or other reports relating to Indices or securities underlying an Index. Any such activities may have a positive or negative effect on the value of Notes relating to such Indices. In undertaking any such activities, neither the Issuer nor any affiliate of the Issuer is under any obligation to consider the interests of the Noteholders. In addition, the Issuer may assume roles as hedging counterparty or calculation agent under the Notes. In respect of any of these roles the Issuer may have interests that conflict with the interests of Noteholders.

Any calculations, determinations and adjustments to be made in relation to the Conditions shall, unless otherwise specified, be made by the Calculation Agent and in such a manner as the Calculation Agent determines is appropriate acting in good faith and in a commercially reasonable manner (having regard in each case to the criteria stipulated in the Conditions and the hedging arrangements entered into with any Hedging Counterparty).

Notwithstanding that certain calculations, determinations and adjustments in the Conditions may be expressed to be on a certain date, the Calculation Agent may make such calculations, determinations and adjustments in respect of that date on a date after that date determined by it acting in good faith and in a commercially reasonable manner.

Pursuant to the Conditions the Calculation Agent has a number of discretions. These are necessary since certain circumstances or the occurrence of certain events may materially affect the costs to the Company and/or a Hedging Counterparty (including in relation to any Related Financial Product) and/or any issuer or obligor of a Related Financial Product of maintaining the Preference Shares or a Related Financial Product or hedging arrangements for the Preference Shares or a Related Financial Product, in each case before and after the occurrence of such event in a way which has not been reflected in the pricing of the Preference Shares and/or the Related Financial Product. In addition, certain circumstances may arise where it is not reasonably practicable or otherwise not appropriate for certain valuations to be carried out in relation to relevant Index or Indices and in these circumstances the Calculation Agent also may exercise certain discretions acting in good faith and in a commercially reasonable manner.

8. **Severability**

Should any one or more of the provisions contained in the Conditions be or become invalid, the validity of the remaining provisions shall not in any way be affected thereby.

9. **Governing Law And Jurisdiction**

11. **Calculation Agent Modifications**

The Calculation Agent will employ the methodology and comply with the provisions described in the Conditions to determine the amounts payable in respect of the Preference Shares. The Calculation Agent's determination in the application of such methodology and compliance with the

provisions shall be final, conclusive and binding on the Company and Shareholders except in the case of manifest error.

The Calculation Agent shall be free to modify such methodology or provisions from time to time, acting in good faith and in a commercially reasonable manner, (1) as it deems appropriate in response to any market, regulatory, juridical, fiscal or other circumstances which may arise which, in the opinion of the Calculation Agent, necessitates or makes desirable (taking into account the interests of the Company and any obligor of a Related Financial Product) a modification or change of such methodology or provisions or (2) for the purposes of (i) preserving the intended economic terms of the Preference Shares or (ii) curing any ambiguity or correcting or supplementing any provision of the Conditions or (iii) accounting for any change in the basis on which any relevant values, levels or information is calculated or provided which would materially change the commercial effect of any provision or provisions of the Conditions or (iv) replacing any information provider or source or (v) making amendments to the provisions of a formal, minor or technical nature or (vi) correcting any manifest or proven errors or (vii) making such amendments to comply with mandatory provisions of any applicable laws, **provided that** no modification by the Calculation Agent constituting a variation (or deemed variation) of the rights of the Preference Shares (or any other class of shares of the Company) for the purposes of sections 630-640 of the Companies Act 2006 and/or the Articles shall have effect unless previously approved in accordance with the Companies Act 2006 and the Articles.

Other than with respect to payments, where the Company fails to exercise any discretion or take any action provided to it in the Conditions when the exercise of such discretion or action would be necessary or desirable (as determined by the Calculation Agent), the Calculation Agent may exercise such discretion on its behalf acting in good faith and in a commercially reasonable manner.

12. **Consequences of Disrupted Days**

If any Scheduled Valuation Date in respect of an Index is a Disrupted Day in respect of such Index then the Initial Valuation Date, the Valuation Date or the Auto-Call Valuation Date, as the case may be, for such Index shall be the first succeeding Scheduled Trading Day for such Index that is not a Disrupted Day relating to that Index, unless each of the Specified Maximum Number of Disrupted Days for such Index immediately following the relevant Scheduled Valuation Date is a Disrupted Day relating to that Index (the "**Limit Date**"). In that case, (a) that Limit Date shall be deemed to be the Initial Valuation Date, the Valuation Date or the Auto-Call Valuation Date, as the case may be, for the relevant Index notwithstanding the fact that such day is a Disrupted Day for such Index, and (b) the Calculation Agent shall determine the level of such Index as of the Valuation Time on that Limit Date in accordance with (subject to the Adjustment Provisions), the formula for and method of calculating that Index last in effect prior to the occurrence of the first Disrupted Day using the Exchange traded or quoted price as of the Valuation Time on that Limit Date of each security comprised in that Index (or, if an event giving rise to a Disrupted Day has occurred in respect of the relevant security on that Limit Date, its good faith estimate of the value for the relevant security as of the Valuation Time on that Limit Date).

13. **Adjustments**

(a) ***Successor Index***

If a relevant Index is (i) not calculated and announced by the Index Sponsor but is calculated and published by a successor to that Index Sponsor (the "**Successor Index Sponsor**") acceptable to the Calculation Agent or (ii) replaced by a successor index using, in the determination of the Calculation Agent, the same or a substantially similar formula for and method of calculation as used in the calculation of such Index, then in each case that Index (the "**Successor Index**") will be deemed to be the Index.

(b) ***Index Adjustment Events***

If (i) on or prior to the Initial Valuation Date, the Valuation Date or an Auto-Call Valuation Date the relevant Index Sponsor announces that it will make a material change in the formula for or the method of calculating the relevant Index or in any other way materially modifies the Index (other than a modification prescribed in the formula or method to maintain that Index in the event of

changes in its constituent securities, capitalisation and other routine events) (an "**Index Modification**") or permanently cancels that Index and no Successor Index exists (an "**Index Cancellation**") or (ii) on the Initial Valuation Date, the relevant Auto-Call Valuation Date or the Valuation Date, as the case may be, such Index Sponsor or, if applicable, the Successor Index Sponsor, fails to calculate and announce the relevant Index Level (an "**Index Disruption**") or (iii) at any time an Administrator/Benchmark Event occurs (together with an Index Modification, an Index Cancellation and an Index Disruption, each an "**Index Adjustment Event**"), then (A) in the case of an Index Modification or an Index Disruption, the Calculation Agent shall determine if such Index Adjustment Event has a material effect on the Preference Shares and, if so, shall calculate any relevant adjustment to the Conditions which may include, without limitation (i) an adjustment to any value, date, variable or other provision to take into account the relevant Index Adjustment Event, (ii) delaying the Initial Valuation Date, the relevant Auto-Call Valuation Date or the Valuation Date, as the case may be, until the relevant Index Adjustment Event no longer exists or (iii) determining the Index Level for such Index for each date following such change, failure or cancellation on which the Index Level is required for the purposes of the Preference Shares, using, in lieu of a published level for that Index, the level for that Index on such date as determined by the Calculation Agent in accordance with the formula for and method of calculating that Index last in effect prior to the change, failure or cancellation, but using only those securities that comprised such Index immediately prior to that Index Adjustment Event and (B) in the case of an Index Cancellation or an Administrator/Benchmark Event, the Company may, at any time thereafter, determine that all but not some only of the Preference Shares shall be redeemed in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*).

(c) **Consequences of an Administrator/Benchmark Event**

- (i) If the Calculation Agent determines that an Administrator/Benchmark Event has occurred in relation to a relevant Index, then the Calculation Agent shall do any of the following:
 - (A) determine that references to such Index shall be deemed to be replaced by references to such index, benchmark or price source as the Calculation Agent determines would have the effect of placing the Company and/or the issuer of any Related Financial Product in an economically equivalent position to that which it would have been in had the Administrator/Benchmark Event not occurred (the "**Replacement Index**") (and in making such determination the Calculation Agent shall be entitled to take into account such facts and circumstances as it considers relevant including, without limitation, (i) any index, benchmark or other price source which measures the same market or economic reality as the Index and which is formally designated, nominated or recommended by the administrator or sponsor of the Index or (ii) any index, benchmark or other price source which is formally designated, nominated or recommended by any Relevant Nominating Body, in each case to replace the Index), in which case:
 - (1) references to such Index shall be deemed to be replaced with references to such Replacement Index with effect from the Administrator/Benchmark Event Determination Date; and
 - (2) the Calculation Agent shall make such other adjustments to the Conditions as it determines are necessary to account for the effect on the Preference Shares of referencing the Replacement Index in place of such Index including, without limitation, to any variable, margin, calculation methodology, valuation, settlement, payment terms or any other terms of the Preference Shares; or
 - (B) follow the steps for determining the relevant level of the Affected Index set out in Condition 13(b) (*Index Adjustment Events*) as if the Administrator/Benchmark Event were an Index Cancellation;

- (C) determine that the Preference Shares shall be redeemed in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*);

provided, however, that if (x) it is or would be unlawful at any time under applicable law or regulation or (y) it would contravene any applicable licensing requirements, in each case, for any of the above provisions or determinations to apply to the Preference Shares, then such provision shall not apply and the Calculation Agent shall not make such determination (as the case may be) and the Calculation Agent shall instead take any of the above actions that complies with the applicable law, regulation or licensing requirements.

- (ii) In making any determination under this Condition 13(c), the Calculation Agent shall take account of such facts and circumstances as it considers relevant, including, without limitation, any determinations made in respect of any hedging arrangements in relation to any Related Financial Product (including in respect of any termination or re-establishment of hedging arrangements) and the funding costs of the issuer of any Related Financial Product.
- (iii) If the Calculation Agent is not able to determine the Index in accordance with the provisions of this Condition 13(c) on any Index Determination Date, then the Index Determination Date shall be postponed to such date as it is able to make such determination and any Index Related Payment Date will also be postponed, if needed, such that the Related Payment Date shall fall at least three (3) Business Days following the postponed Index Determination Date.
- (iv) No further payment on account of interest or otherwise shall be due in respect of any payment postponed pursuant to this Condition 13(c).
- (v) The Calculation Agent shall promptly following the determination of any replacement for an Index pursuant to this Condition 13(c) give notice thereof and of any changes pursuant to paragraph i)(A)(2) to the Company and the holders of the Preference Shares.
- (vi) Without prejudice, in the case of any Index-Linked Preference Shares, to the provisions of Condition 13(b) (*Index Adjustment Events*) in relation to an Index Modification, if the definition, methodology or formula for an Index, or other means of calculating the Index, is changed, then references to such Index shall be to such Index as so changed.

14. **Additional Disruption Events**

- (a) Following the occurrence of an Additional Disruption Event, the Calculation Agent will determine whether or not the Preference Shares shall continue or be redeemed early.
- (b) If the Calculation Agent determines that the Preference Shares shall continue, the Calculation Agent may make such adjustment as it considers appropriate, if any, to any one or more of the Conditions to account for the Additional Disruption Event and determine the effective date of that adjustment.
- (c) If the Calculation Agent determines that the Preference Shares shall be redeemed early, then the Company shall redeem all but not some only of the Preference Shares in accordance with Condition 3 (*Early Redemption if there is an Early Preference Share Redemption Event*).
- (d) Upon the occurrence of an Additional Disruption Event, the Company, or the Calculation Agent on behalf of the Company, shall give notice as soon as practicable to the Shareholders stating the occurrence of the Additional Disruption Event, giving details thereof and the action proposed to be taken in relation thereto **provided that** any failure to give, or non-receipt of, such notice will not affect the validity of the Additional Disruption Event.

"**Additional Disruption Event**" means any of Change in Law, Hedging Disruption and/or Increased Cost of Hedging.

"Change in Law" means that on or after the Issue Date, (i) due to the adoption of or any change in any applicable law or regulation (including, without limitation, any tax law), or (ii) due to the promulgation of or any change in the interpretation by any court, tribunal or regulatory authority with competent jurisdiction of any applicable law or regulation (including any action taken by a taxing authority), the Company determines that (A) it has become illegal for the Company or the Hedging Counterparty to hold, acquire or dispose of any securities comprising any Index or it has become illegal for the Company or the Hedging Counterparty to hold, acquire, purchase, sell or maintain one or more (x) positions or contracts in respect of any securities, options, futures, derivatives or foreign exchange in relation to the Preference Shares, any Related Financial Product, or in relation to the Company's or the Hedging Counterparty's hedging activities in connection with the Preference Shares or any Related Financial Product (y) stock loan transactions in relation to the Preference Shares or any Related Financial Product or (z) other instruments or arrangements (howsoever described) held by the Company or the Hedging Company in order to hedge, individually or on a portfolio basis, the Preference Shares or any Related Financial Product relating to any Index or (B) the Company or any Hedging Counterparty will incur a materially increased cost in performing its obligations in relation to the Preference Shares or any Related Financial Product (including, without limitation, due to any increase in tax liability, decrease in tax benefit or other adverse effect on the tax position of the Company and/or any Hedging Counterparty).

"Hedging Disruption" means that the Company and/or any Hedging Counterparty is unable, after using commercially reasonable efforts, to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Company issuing and performing its obligations with respect to the Preference Shares or of any obligor of a Related Financial Product issuing and performing its obligations with respect to a Related Financial Product, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s).

"Increased Cost of Hedging" means that the Company and/or any Hedging Counterparty would incur a materially increased (as compared with circumstances existing on the Issue Date) amount of tax, duty, expense or fee (other than brokerage commissions) to (i) acquire, establish, re-establish, substitute, maintain, unwind or dispose of any transaction(s) or asset(s) it deems necessary to hedge the equity or other price risk of the Company issuing and performing its obligations with respect to the Preference Shares or of any obligor of a Related Financial Product issuing and performing its obligations with respect to a Related Financial Product, or (ii) realise, recover or remit the proceeds of any such transaction(s) or asset(s), **provided that** any such materially increased amount that is incurred solely due to the deterioration of the creditworthiness of the Company and/or any Related Financial Product obligor shall not be deemed an Increased Cost of Hedging.

15. **Correction of Index Levels**

If the level of an Index published by the Index Sponsor at any time and used or to be used by the Calculation Agent for any calculation or determination under the Preference Shares is subsequently corrected and the correction is published by such Index Sponsor within one Settlement Cycle after the original publication, the Calculation Agent will make such adjustment as it determines to be appropriate, if any, to the settlement or payment terms of the Preference Shares to account for such correction **provided that** if any amount has been paid in an amount which exceeds the amount that would have been payable if the correction had been taken into account, no further amount in an amount at least equal to the excess is payable in respect of the Preference Shares and the Calculation Agent determines that it is not practicable to make such an adjustment to account fully for such correction, the Company shall be entitled to reimbursement of the relevant excess payment (or, as the case may be, the proportion thereof not accounted for by an adjustment made by the Calculation Agent) by the relevant Shareholder, together with interest on that amount for the period from and including the day on which payment was originally made to (but excluding) the day of payment of reimbursement by the Shareholder (all as calculated by the Calculation Agent). Any such reimbursement shall be effected in such manner as the Company shall determine.

CALCULATION AGENT DISCLAIMERS

The Calculation Agent makes no express or implied representations or warranties as to (a) the advisability of investing in or obtaining exposure to the Preference Shares, (b) the value of the

Preference Shares at any particular time on any particular date, or (c) any amounts that may become payable in respect of the Preference Shares. The Calculation Agent shall not act as agent or trustee for the holders of the Preference Shares or any Related Financial Product.

Without limiting any of the foregoing, in no event shall the Calculation Agent have any liability (whether in negligence or otherwise) to any Shareholders or Related Financial Product investors for any direct, indirect, special, punitive, consequential or any other damages (including loss of profits) even if notified of the possibility of such damages.

In addition, to providing calculation agency services to the Company, the Calculation Agent or any of its Affiliates, may perform further or alternative roles relating to the Company and any series of Preference Shares. Furthermore, the Calculation Agent or any of its Affiliates may contract with the Company and/or enter into transactions which relate to the Company, the Preference Shares or the Indices and as a result the Calculation Agent may face a conflict between its obligations as Calculation Agent and its and/or its Affiliates' interests in other capacities.
