HSBC Holdings plc

Reconciliations of Non-GAAP Financial Measures 31 March 2019

Use of non-GAAP financial measures

Our reported results are prepared in accordance with IFRSs as detailed in the Financial Statements starting on page 214 of the *Annual Report and Accounts 2018*. In measuring our performance, the financial measures that we use include those which have been derived from our reported results in order to eliminate factors which distort year-on-year comparisons. These are considered non-GAAP financial measures.

Return on Equity and Return on Tangible Equity

We provide Return on Tangible Equity ('RoTE') in addition to Return on Equity ('RoE') as a way of assessing our performance which is closely aligned to our capital position.

RoTE is computed by adjusting reported 'profit attributable to the ordinary shareholders of the parent company' for the post-tax movements in the present value of in-force long-term insurance business ('PVIF') and adjusting the reported equity for goodwill, intangibles and PVIF, net of deferred tax. The adjustment to

Return on tangible equity excluding significant items and UK bank levy (annualised)

reported results and reported equity excludes amounts attributable to other equity instrument holders and non-controlling interests.

For our global businesses, we provide RoTE excluding significant items and the UK bank levy which is more closely aligned to the basis on which the global business performance is assessed by the Chief Operating Decision Maker (further information on the basis of preparation for our global businesses is provided on page 47 of the Annual Report and Accounts 2018).

RoTE excluding significant items and UK bank levy is computed by adjusting 'profit attributable to the ordinary shareholders, excluding PVIF' for significant items (net of tax) and the bank levy, and adjusting the 'average tangible equity' for the change in fair value on our long-term debt attributable to credit spread through other comprehensive income ('fair value of own debt'), and debit valuation adjustments ('DVA').

The following table details the adjustments made to the reported results and equity:

10.9

11.6

Return on Equity and Return on Tangible Equity				
	Quarter ended			
	31 Mar	31 Dec	31 Mar	
	2019	2018	2018	
	\$m	\$m	\$m	
Profit
