Independent Limited Assurance Report to the Directors of HSBC Holdings plc

HSBC Holdings plc (“HSBC”) engaged us to provide limited assurance on the information as at 31 December 2020 described below and set out in HSBC’s Annual Report and Accounts 2020 and the website (https://www.hsbc.com/esg) (the “Report”).

Our conclusion
Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Selected Information as at 31 December 2020 has not been prepared, in all material respects, in accordance with the Reporting Criteria.

This conclusion is to be read in the context of what we say in the remainder of our report.

Selected Information
The scope of our work was limited to assurance over the external reporting of HSBC’s progress as at 31 December 2020 towards the $100bn Sustainable Finance commitment, as set out in the table below (the “Selected Information”).

HSBC’s internal reporting guidelines for measuring, recording and reporting the Selected Information (the “Reporting Criteria”) are set out in HSBC’s Data Dictionary document (dated December 2020), available in Appendix A.

Professional standards applied and level of assurance
We performed a limited assurance engagement in accordance with International Standard on Assurance Engagements 3000 (Revised) ‘Assurance Engagements other than Audits or Reviews of Historical Financial Information’, issued by the International Auditing and Assurance Standards Board. The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than, for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed.

Our Independence and quality Control
We complied with the Institute of Chartered Accountants in England and Wales (ICAEW) Code of Ethics, which includes independence and other requirements founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour that are at least as demanding as the applicable provisions of the IESBA Code of Ethics.

We apply International Standard on Quality Control (UK) 1 and accordingly maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Our work was carried out by an independent team with experience in sustainability reporting and assurance.

Understanding reporting and measurement methodologies
The Selected Information needs to be read and understood together with the Reporting Criteria, which HSBC is solely responsible for selecting and applying. The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measurement techniques and can affect comparability between entities and over time. The Reporting Criteria used for the reporting of the Selected Information are as at 31 December 2020.

Work done
We are required to plan and perform our work in order to consider the risk of material misstatement of the Selected Information. In doing so, we:

- made enquiries of HSBC’s management, including the Sustainable Finance (SF) team and sector specialist teams responsible for collating relevant data;
- evaluated the design of the key structures, systems, processes and controls for managing, recording and reporting the Selected Information;
- performed limited substantive testing on a selective basis of the Selected Information to check that data had been appropriately measured, recorded, collated and reported; and
- considered the disclosure and presentation of the Selected Information.

HSBC’s responsibilities
HSBC management are responsible for:

- designing, implementing and maintaining internal controls over information relevant to the preparation of the Selected Information that is free from material misstatement, whether due to fraud or error;
- establishing objective Reporting Criteria for preparing the Selected Information;
- measuring and reporting the Selected Information based on the Reporting Criteria; and
- the content of the Report.

Our responsibilities
We are responsible for:

- planning and performing the engagement to obtain limited assurance about whether the Selected Information is free from material misstatement, whether due to fraud or error;
- forming an independent conclusion, based on the procedures we have performed and the evidence we have obtained; and
- reporting our conclusion to the Directors of HSBC.

This report, including our conclusions, has been prepared solely for the Board of Directors of HSBC in accordance with the agreement between us, in order to assist the Directors in reporting HSBC’s progress as at 31 December 2020 towards the $100bn Sustainable Finance commitment. We permit this report to be disclosed on HSBC’s website and cross referred within HSBC’s Annual Report and Accounts, to assist the Directors in responding to their governance responsibilities by obtaining an independent assurance report in connection with the Selected Information. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Board of Directors and HSBC for our work or this report except where terms are expressly agreed between us in writing.

1 The maintenance and integrity of HSBC website is the responsibility of HSBC; the work carried out by us does not involve consideration of these matters and, accordingly, we accept no responsibility for any changes that may have occurred to the reported Selected Information or Reporting Criteria when presented on HSBC’s website.
Appendix A – HSBC’s USD100bn Sustainable Financing and Investment Commitment - Data Dictionary 2020

We define sustainable finance as any form of financial service that integrates environmental, social and governance (ESG) criteria into business or investment decisions. Sustainable finance covers the financing and investment activities needed to support the United Nations Sustainable Development Goals (SDGs), and the Paris Agreement. This therefore includes both positive climate change and societal impact activities.

Unlike financial accounting standards, there are currently limited industry standards or globally recognised established practices for measuring performance of this type. We expect standards and definitions to be developed and evolve over time. We also expect innovation to lead to the creation of new products and services, these will be added to our data dictionary and disclosed publically via our website as they are identified. In particular this will focus on sustainable ESG activities required in the real world economy.

A key objective for HSBC is to provide financing and to facilitate, in an advisory capacity, the flow of capital to enable the transition to a low-carbon economy, whilst helping clients manage transition risk and enabling activities needed to support the Paris Agreement and the UN SDGs. HSBC has primary business governance forums that include; the Group Climate Business Council and the Green Bonds & Loan Committee, the remit of these forums covers both green and societal impacts. For further information please see the ESG information section of our website.

HSBC has commitment to provide and facilitate $100bn of sustainable financing and investments by 2025 and have appointed PricewaterhouseCoopers LLP (PwC) to provide limited assurance on the progress against this commitment as at 31 December 2020. We have therefore developed our data dictionary to provide additional guidance and transparency on the activities in scope that contribute towards our commitment.

We define sustainable finance in three categories:

1. **Facilitation**: advisory services to facilitate the flow of capital and to provide access to capital market;
2. **Financing**: lending facilities for defined use of proceeds, being the drawn and undrawn amount (i.e. the limit) provided at the point of execution, including bridging loans and trade finance loans; and
3. **Investments**: investments made into funds that have an impact on society and/or the environment. These funds are specifically defined as socially responsible and/or low carbon investments funds as they align to industry standards and they are managed by HSBC.

This is not a balance sheet value, instead our total commitment measures the cumulative flow of capital towards the low carbon economy and positive societal impacts since the beginning of 2017 - detailed definitions are available in the table below. Any transactions booked prior to 2017 have not been included in this commitment. Prior periods will not be restated if items are subsequently uncovered. We will remove projects from our prior periods if they lose their externally validated green or social impact status, for example; S&P or Moody’s withdraw their Green Evaluations.
## 1. Facilitation

<table>
<thead>
<tr>
<th>Products</th>
<th>Definition</th>
<th>Scope</th>
</tr>
</thead>
<tbody>
<tr>
<td>Debt Capital Markets (DCM): Green, Social &amp; Sustainability Bonds</td>
<td>Participation (bookrunner) in Green, Social and Sustainable (GSS) Bond issuance as defined by a green, social or sustainable bond framework ([ICMA Bond Principles], [Climate Bonds Initiative] or [HSBC Bond Frameworks]), or are classified as a GSS Bond by Dealogic. This includes HSBC’s own bond issuances.</td>
<td>Issuances from 1st January 2017 [2] where HSBC has acted as a bookrunner in the transaction, or HSBC is the issuer. Amount included is HSBC’s apportioned value of the bond’s proceeds, i.e. number of bookrunners per transaction. This is the Dealogic methodology which is recognised as the industry standard. The HSBC records are crossed checked / validated against Dealogic (an independent 3rd party transactions reporting platform). [3]</td>
</tr>
<tr>
<td>Structured Green Bonds</td>
<td>HSBC issued Green bonds that align to the above definition, however, they are linked to a well-defined ESG index and not publically traded. Annual progress update reports are available on the [Green and sustainability bonds] section of our website.</td>
<td>HSBC issuances from 1st January 2017 [2] where HSBC has issued a Green Bond linked to an ESG index. Amount included is full bond value as HSBC is the sole bookrunner, these are private placements and they are not recorded or reported by Dealogic. The bond are covered by the HSBC Green Bond Framework. These are issued by Global Markets and are reviewed by the HSBC Green Bond Committee. [3]</td>
</tr>
<tr>
<td>Debt Capital Markets (DCM)</td>
<td>Participation (bookrunner) in debt issuance for a company; classified by HSBC as a renewables company (companies defined as renewable based on the energy section of [Climate Bonds Initiative Taxonomy]), or a company whose core business or the project aligns to one of the [ICMA eligible green project categories]).</td>
<td>Issuances from 1st January 2017 [2] where HSBC has acted as a bookrunner in the transaction. Amount included is HSBC’s apportioned value of the bond’s proceeds (aligns to Dealogic methodology: bond proceeds divided by number of bookrunners). Data is crossed checked and is validated against external 3rd party reports provided by Dealogic. [3]</td>
</tr>
<tr>
<td>Equity Capital Markets (ECM)</td>
<td>Participation (bookrunner) in equity issuance for a company; classified by HSBC as a renewables company (companies defined as renewable based on the energy section of [Climate Bonds Initiative Taxonomy]), or, a company whose core business or the project aligns to one of the [ICMA eligible green project categories]).</td>
<td>Issuances from 1st January 2017 [2] where HSBC has acted as a bookrunner in the transaction. Amount included is HSBC’s apportioned value of the equity’s proceeds (aligns to Dealogic methodology: deal proceeds divided by number of bookrunners). Data is crossed checked and validated against external 3rd party reports provided by Dealogic. [3]</td>
</tr>
<tr>
<td>Debt Capital Markets – Short Term Debt (STD)</td>
<td>Participation (bookrunner) in a short term debt issuance as defined by Dealogic, having the same characteristics as a bond, however, the maturity date is &lt;18 month from issuance. The use of proceeds must align to one of the [ICMA eligible green project categories]).</td>
<td>Issuances from 1st January 2017 [2] where HSBC has acted as a bookrunner in the transaction. Amount included is HSBC’s apportioned value of the equity’s proceeds (aligns to Dealogic methodology: deal proceeds divided by number of bookrunners). Data is crossed checked and validated against external 3rd party reports provided by Dealogic. [3]</td>
</tr>
<tr>
<td>Finance Advisory</td>
<td>Advisory services on a loan, Export Credit Agency (ECA) or other type of corporate finance for a project which meets the criteria of an eligible green project. We define eligible green projects as those that meet the one of the use of proceeds requirement in the [HSBC Green Bond Framework]. The financing is provided by development banks, or governments (ECAs), due to the nature of the project.</td>
<td>Advisory service on new facilities (funding amount, being the limit at execution) from 1st January 2017 [2]. Amount included is HSBC’s apportioned value of the financing (methodology: financing amount divided by number of advisors). [3][5]</td>
</tr>
</tbody>
</table>
## 2. Financing

<table>
<thead>
<tr>
<th>Products</th>
<th>Definition</th>
<th>Scope</th>
</tr>
</thead>
<tbody>
<tr>
<td>Project Finance</td>
<td>Loan or other type of corporate finance for a project which meets the criteria of an eligible green project. We define eligible green projects as those that meet the “Renewables” criteria within use of proceeds requirement in the HSBC Green Bond Framework.</td>
<td>New facilities provided (committed amount, being the limit at execution) from 1st January 2017 (^2); or increases to facilities from 1st January 2017, in these cases we will only include the incremental increase, not the full value of the facility. These facilities are managed and monitored by our sector specialist team Infrastructure &amp; Real Estate Group (IRG). The limit is sourced from HSBC’s internal risk systems. (^3)</td>
</tr>
<tr>
<td>Green Loans</td>
<td>Loans aligned to the <a href="https://www.lma.net/the-market/place-to-finance/green-loan-principles">Green Loan Principles</a> (GLP) set out by the Loan Market Association (LMA); includes any type of loan instrument made available exclusively to finance or re-finance (re-financing in the same calendar year will be excluded), in whole or in part, new and/or existing eligible green projects.</td>
<td>New facilities provided (committed amount, being the limit at execution) from 1st April 2018. The facility terms and conditions will reflect GLP requirements. Monitoring and control is part of the Relationship Manager’s normal credit process and is reviewed annually. The limit is sourced from HSBC’s internal risk systems. (^3)</td>
</tr>
<tr>
<td>Other Green Loans</td>
<td>Loans, includes any type of loan instrument(^5) made available exclusively to finance or re-finance (re-financing in the same calendar year will be excluded), that do not meet the full requirements of the GLP (businesses may chose not to comply with all the requirements). However, the Use of Proceeds are determined to meet criteria for eligible green projects as defined in the GLP or HSBC Green Bond Frameworks. For example, this may include lending for green buildings, renewable energy, energy efficiency, or facilities provided to a company classified by HSBC as a ‘pure green’ company (^1).</td>
<td>New facilities provided (committed amount, being the limit at execution) from 1st January 2017 (^2). Facilities that would qualify for use of proceeds under the GLP and/or Green Bond Framework. Local business teams identify green lending and the impact of the facility, these are reviewed on a case by case basis by regional and global sustainability experts to ensure they comply with the use of proceeds or that the company is a ‘pure green’ company. The limit is sourced from HSBC’s internal risk systems. (^3)</td>
</tr>
<tr>
<td>Green Trade Finance</td>
<td>Global Trade &amp; Receivables Finance (GTRF) funded (lending) products that are aligned to the GLP. The facilities made available exclusively to finance or re-finance (re-financing in the same calendar year will be excluded) eligible green underlying trade activities (evidenced by underlying trade transaction documents). GTRF lending products include: Trade Loans, Receivables Finance, Imports and Exports, and Commodity Structured Trade Finance (CSTF), these facilities will be recognised when the 4 pillars of the GLP are met.</td>
<td>New facilities provided (committed amount, being the limit at execution) from 1st June 2019. The facility terms and conditions will reflect GLP requirements. Monitoring and control is part of the Relationship Manager’s and/or GTRF Business Development Manager and/or GTRF Transaction Services normal credit and transaction processes and is reviewed annually. The limit is sourced from HSBC’s internal risk systems. (^3)</td>
</tr>
<tr>
<td>Sustainable Trade Instrument</td>
<td>Global Trade &amp; Receivables Finance (GTRF) contingent liability products that are aligned to the Sustainable Contingent Principles (SCP). The SCP is an internal framework that is based on GLP and ICMA Social Bond Principles, it combines the ‘use of proceeds’ and the 4 core components of the existing frameworks. GTRF contingent liability products include: guarantees, standby letter of credit, and documentary credit</td>
<td>New facilities provided, being the limit of the line that aligns to the definition at execution, from 1st January 2020. The facility terms and conditions will reflect SCP requirements. Monitoring and control is part of the Relationship Manager’s and/or GTRF Business Development Manager normal credit process and is reviewed annually. The limit is sourced from HSBC’s internal risk systems and/or GTRF systems. (^3)</td>
</tr>
</tbody>
</table>

NB. HSBC is establishing the appropriate criteria and definitions to account for societal impact activity financing, for example SDG and Social Loans.
### 3. Investments

<table>
<thead>
<tr>
<th>Products</th>
<th>Definition</th>
<th>Scope</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Socially Responsible Investment (SRI) Funds</strong></td>
<td>Assets under management in funds that are defined as socially responsible investments (‘SRI’). These funds primarily avoid investing in companies that can have a negative impact on society, such as tobacco or gambling. Some of the SRI funds are investing in companies that aim to reduce the detrimental impacts that climate change can create, while others have defined transition strategies. These transition strategies may include using alternative energy clean technology and developing sustainable products and/or seeking to increase the beneficial impacts on our society, such as health, housing and clean water.</td>
<td>HSBC Group Asset Management. Facilities provided from 1st January 2017 [2], net new flows into the identified funds (not the fund total Assets under Management). [3]</td>
</tr>
<tr>
<td><strong>Principal Investment</strong></td>
<td>Investments made by GBM HSBC Principal Investments Group into investment funds focused on investing in sustainable and social impact related businesses. The investment strategies of these funds would primarily align with the UN Sustainable Development Goals, and the fund managers would provide regular sustainable and impact development reporting.</td>
<td>Funds invested from 1st January 2018 by HSBC. The full commitment value of HSBC’s investment into the fund will be recorded on the first capital draw down. If additional commitment to an existing fund occurs at a later date, only the incremental amount will counted. [3][6]</td>
</tr>
</tbody>
</table>

---

1. We define ‘pure green’ companies as businesses which derive 90% or more of their revenues from activities in ‘Eligible Sectors’, such as renewables or energy efficiency. In these instances, use of Proceeds can be used by the business for general purposes, so long as this financing does not fund expansion into activities falling outside the Eligible Sectors. Validation sits with Group Finance and HSBC’s Green Loans Committee. Eligible Sectors are listed in the Green Bond Framework.
2. Although we announced the $100 Sustainable Financing commitment in November 2017, we began counting activity toward it starting with calendar-year 2017 deals.
3. Amounts are converted to USD at the time of the transaction as they are a point in time measurement. Amounts are not restated to adjust for changes in FX rates.
4. All HSBC assets under management align to HSBC’s RI policy and are subject to ESG integration and corporate engagement and shareholder action screening.
5. Loan instruments include, but not limited to; Import or Export Loans, HSBC Equipment Finance (HEF) and Export Credit Agency (ECA).
6. For newly added definitions we will not restate prior year results and will include new facilities from the period the definition was added.
