Positive impact of volatile items

# Net interest income

## Reported NIM progression, bps

## Reported NIM trend

- ◆ **1Q21 reported NII of \$6.5bn down \$1.1bn (14%) vs. 1Q20** from lower global interest rates, partially offset by increased AIEAs; 1Q21 NII down modestly (\$0.1bn, 2%) vs. 4Q20
- ◆ **1Q21 NIM of 1.21% down 1bp vs. 4Q20;** mainly due to a further shift in the asset mix towards lower-yielding assets and falling rates causing further compression between asset and liability pricing in some entities
- ◆ **FY21 NII expectations unchanged**

# Non interest income

## WPB, \$m

- ◆ WPB non-NII up \$894m (69%) vs. 1Q20, primarily from positive movement in market impacts in Insurance (\$0.8bn total), and also supported by strong equity and mutual fund sales in Wealth in 1Q21
- ◆ Lower fees in Personal Banking due primarily to a change in charging structure on UK overdrafts

## CMB, \$m

- ◆ CMB non-NII modestly down (\$22m, 2%) vs. 1Q20
- ◆ Net fees decreased \$46m (5%), reflecting the continued impact of Covid-19 on trade and payment volumes

## GBM, \$m

- ◆ GBM non-NII up \$642m (24%) vs. 1Q20, primarily from the absence of MTM impacts and increased volatility
- ◆ Fees increased by \$158m (20%), notably in Securities Services and Banking due to higher volumes
- ◆ Trading and other income increased by \$484m (26%). Strong performance in Global Debt Markets and Equities reflecting robust client activity, partially offset by Global FX, lower against an exceptionally strong 1Q20

- ◆ **1Q21 Group non-NII was \$6.8bn, up \$0.9bn (15%) vs. 1Q20; up \$1.5bn (28%) vs. 4Q20**
- ◆ 1Q20 non-NII negatively impacted by volatile items **totalling \$1.2bn**, primarily market impacts in Insurance and XVAs and bid-offer adjustments in GBM
- ◆ Corporate Centre down **\$0.6bn** vs. 1Q20 mainly due to valuation differences on long term debt and associated swaps

# Credit performance

## Adjusted ECL charge/(release) trend

## ECL charge/(release) by geography, \$m

## ECL charge/(release) by stage, \$bn

1Q21	Stage 1-2	Stage 3	Total

Personal	(0.2)	0.1	(0.0)
<b>Total</b>	<b>(0.7)</b>	<b>0.3</b>	<b>(0.4)</b>

- ◆ **1Q21 net ECL release of \$0.4bn**; Stage 3 charge of \$0.3bn, with Stage 1 – 2 releases of \$0.7bn
- ◆ Benign quarter with respect to Stage 3 charges (Wholesale: \$0.2bn; Personal: \$0.1bn)
- ◆ Stage 3 loans and advances to customers as a % of total loans was 1.8%, stable vs. 31 December 2020
- ◆ Group credit quality indicators stable
- ◆ 1Q21 Stage 1 – 2 ECL allowance was \$6.9bn, \$1.0bn lower vs. 4Q20
- ◆ Based on current economic trajectory, **expect FY21 ECL charge to be below medium-term<sup>12</sup> planning range of 30-40bps**

# Adjusted costs

## Operating expenses trend, \$m

## 1Q21 vs. 4Q20 (ex. levy), \$m

\*Other discretionary spend includes Marketing, Travel and Entertainment

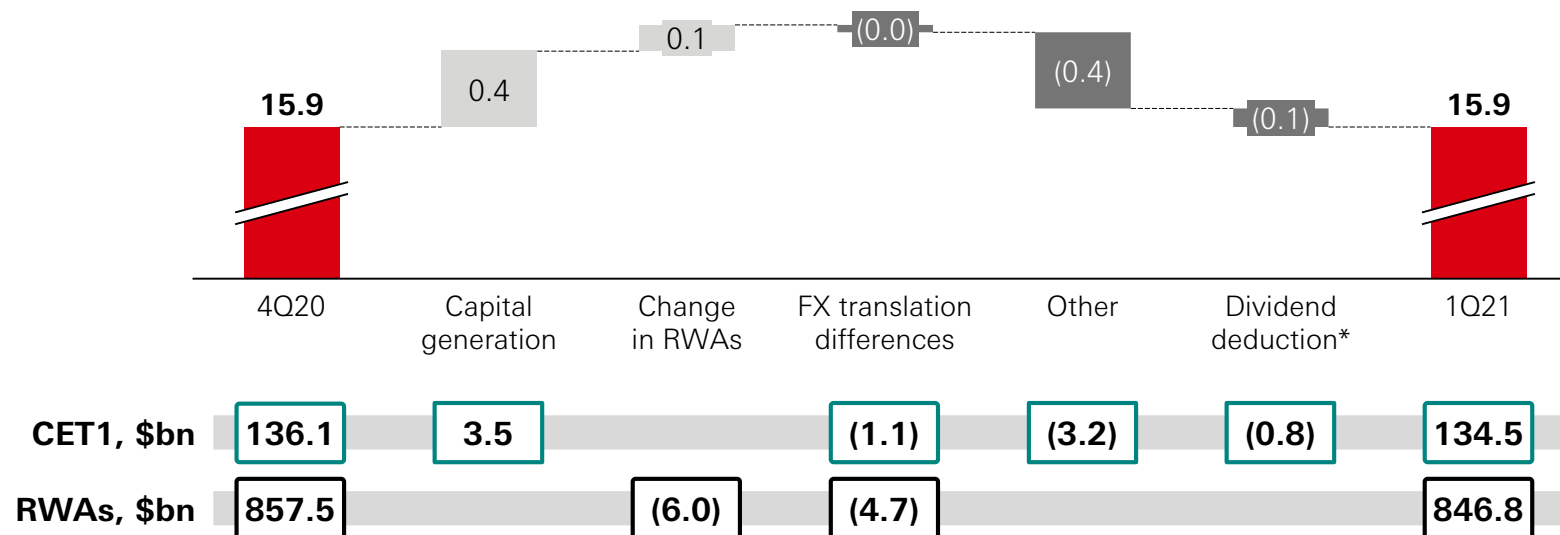

- ◆ **1Q21 costs of \$8.2bn up \$0.2bn (3%) vs. 1Q20.** Cost saves were offset primarily by increased performance-related pay (PRP) (+\$0.5bn, of which \$0.4bn is due to a change in the quarterly phasing of the 2021 PRP pool)
- ◆ **1Q21 costs down \$0.3bn (3%) vs. 4Q20 (ex. levy)** primarily from the non-recurrence of certain charges in 4Q20 and cost saves made in the quarter, partly offset by higher technology spend
- ◆ **Benefit of cost saves in 1Q21 of \$0.4bn;** CTA of \$0.3bn, still expect \$3.5bn of CTA spend for FY21
- ◆ Expect FY21 costs (ex. levy) to be **broadly stable vs. FY20**, but reserve the option to adjust our performance-related pay accrual to reflect the performance of the Group

- ◆ **CET1 ratio of 15.9%** was stable vs. 4Q20, with retained profits offset by fair value movements and other deductions
- ◆ **Reported RWAs** decreased by \$10.7bn (1%), of which \$4.7bn was due to FX movements. Reductions, primarily from GBM management actions, were partially offset by lending growth in CMB and WPB
- ◆ **1Q21 cumulative RWA saves of \$61bn** (FY20: \$52bn)\*\*; on track to deliver >\$100bn saves by end-2022

\*Foreseeable dividend deduction of 3.75¢ per share, 25% of FY20 dividend of \$0.15. Please see page 28 of the HSBC Holdings plc 1Q21 Earnings Release for further detail

- 2 We saw **good business growth in areas of strategic focus** and continue to **deliver** against our strategic ambitions
- 3 **Strong lending pipeline** build in Personal Banking and CMB
- 4 **Cautiously optimistic** on the remainder of 2021; we maintain conservative positions on capital, funding, liquidity and credit

## Forward-looking statements

This Presentation may contain projections, estimates, forecasts, targets, commitments, opinions, prospects, results, returns and forward-looking statements with respect to the financial condition, results of operations, capital position, strategy and business of the Group which can be identified by the use of forward-looking terminology such as “may”, “will”, “should”, “expect”, “anticipate”, “project”, “plan”, “estimate”, “seek”, “intend”, “target” or “believe” or the negatives thereof or other variations thereon or comparable terminology (together, “forward-looking statements”), including the strategic priorities, any financial, investment and capital targets and ESG targets/commitments described herein. Any such forward-looking statements are not a reliable indicator of future performance, as they may involve significant stated or implied assumptions and subjective judgements which may or may not prove to be correct. There can be no assurance that any of the matters set out in forward-looking statements are attainable, will actually occur or will be realised or are complete or accurate. The assumptions and judgments may prove to be incorrect and involve known and unknown risks, uncertainties, contingencies and other important factors, many of which are outside the control of the Group. Actual achievements, results, performance or other future events or conditions may differ materially from those stated, implied and/or reflected in any forward-looking statements due to a variety of risks, uncertainties and other factors (including without limitation those which are referable to general market conditions, regulatory changes or due to the impact of the Covid-19 outbreak). Any such forward-looking statements are based on the beliefs, expectations and opinions of the Group at the date the statements are made, and the Group does not assume, and hereby disclaims, any obligation or duty to update, revise or supplement them if circumstances or management’s beliefs, expectations or opinions should change. For these reasons, recipients should not place reliance on, and are cautioned about relying on, any forward-looking statements. No representations or warranties, expressed or implied, are given by or on behalf of the Group as to the achievement or reasonableness of any projections, estimates, forecasts, targets, commitments, prospects or returns contained herein.

Additional detailed information concerning important factors that could cause actual results to differ materially from this Presentation is available in our Annual Report and Accounts for the fiscal year ended 31 December 2020 filed with the Securities and Exchange Commission (the “SEC”) on Form 20-F on 24 February 2021 (the “2020 Form 20-F”) and our 1Q 2021 Earnings Release which we expect to furnish to the SEC on Form 6-K on 27 April 2021 (the “1Q 2021 Earnings Release”).

## Alternative Performance Measures

This Presentation contains non-IFRS measures used by management internally that constitute alternative performance measures under European Securities and Markets Authority guidance and non-GAAP financial measures defined in and presented in accordance with SEC rules and regulations (“Alternative Performance Measures”). The primary Alternative Performance Measures we use are presented on an “adjusted performance” basis which is computed by adjusting reported results for the period-on-period effects of foreign currency translation differences and significant items which distort period-on-period comparisons. Significant items are those items which management and investors would ordinarily identify and consider separately when assessing performance in order to better understand the underlying trends in the business.

Reconciliations between Alternative Performance Measures and the most directly comparable measures under IFRS are provided in our 2020 Form 20-F and our 1Q 2021 Earnings Release, when filed, each of which are available at [www.hsbc.com](http://www.hsbc.com).

Information in this Presentation was prepared as at 27 April 2021.
