# Commentary

HSBC InvestDirect's (formerly IL&FS Investsmart) total income (excluding exceptional items) during the quarter ended 30 September 2009 was Rs49.81 crore (US\$10.35 million), down from Rs70.06 crore (US\$14.56 million) for the corresponding period in the previous year. The fall was mainly due to lower income from financing activities on account of a lower loan book, which was partly offset by an increase in broking income.

Total expenses have reduced by 25.10 per cent to Rs64.13 crore (US\$13.33 million) from Rs85.62 crore (US\$17.79 million) for the corresponding period in the previous year. The reduction in expenses was due to lower professional fees paid, doubtful debt provisions and interest and finance charges for the quarter ended 30 September 2009.
