Data Pack

3Q 2026

The financial information on which this supplement is based is unaudited and has been prepared in accordance with HSBC's significant accounting policies as described in the Annual Report and Accounts 2025. The financial information does not constitute financial statements prepared in accordance with International Financial Reporting Standards issued by the International Accounting Standards Board ('IFRS Accounting Standards'), is not complete and should be read in conjunction with the Annual Report and Accounts 2025, the Interim Report 2026, and other reports and financial information published by HSBC.

Unless stated otherwise, all information is on a reported basis. Constant currency performance is computed by adjusting reported results for the effects of foreign currency translation differences, which distort year-on-year comparisons. It is computed by retranslating into US dollars for non-US dollar branches, subsidiaries, joint ventures and associates: the reported income statements of comparative periods at the average rates of exchange for the most recent period; and the reported balance sheets of comparative periods at the prevailing rates of exchange on 30 September 2026. We consider constant currency performance to provide useful information for investors by aligning internal and external reporting, and reflecting how management assesses year-on-year performance. Definitions and calculations of other alternative performance measures are included in our 'Alternative performance measures' on page 41 of our Interim Report 2026. Alternative performance measures are reconciled to the closest reported financial measure.

We separately disclose 'notable items', which are components of our income statement which management would consider as outside the normal course of business and generally non-recurring in nature.

On a constant currency basis, quarterly comparatives are translated at average 3Q26 exchange rates for the income statement or at the prevailing rates of exchange on 30 September 2026 for the balance sheet. The year to date comparatives on a constant currency basis are translated at average exchange rates for the nine months to 30 September 2026.

Effective 1 January 2026, we transferred certain clients, primarily in Hong Kong and the UK, to the CIB segment to better meet their needs. This transfer does not change the Group's reportable segments. Comparative periods have been re-presented accordingly. The re-presentation has no impact on the Group's consolidated financial results or financial position.

¹ We have revised the adjustments made to average tangible equity for the purposes of computing our return on average tangible equity ('RoTE') excluding notable items measure. Prior to this, we adjusted average tangible equity for the average impact of notable items whereas from 2025 we no longer make adjustments to average tangible equity. Comparatives have been re-presented on the revised basis.

1 Banking NII for IWPB is computed by deducting third party net interest income ('NII') in our insurance business from total IWPB NII. Total insurance NII is presented in 'fee and other income' in Insurance in our Group Management View of Revenue.

2 'Other' includes revenue from Markets Treasury and hyperinflationary impacts. It also includes other non-product-specific income, and notional tax credits.
