

A million moments of Pride

[Speaker 1] Pride is not just a single day.

[Speaker 2] There are millions of moments we celebrate in our everyday lives.

[Speaker 3] I'm proud of the life that my wife and I have created for ourselves in the 22 years we've been together and so proud of our children.

[Speaker 4] When I got married I didn't even imagine that we'd go on to have children together. It's just been an amazing gift.

[Speaker 5] There was a lot of love in the room. I know that that's a given and that's normal, but there were times when that wasn't.

[Speaker 6] So this is my daughter. She works for an advocacy group that supports LGBT+ and I am so proud of her. She has always stood up and been noticed, even if she's only 5' 3".

[Speaker 7] I took my transgender nephew to his very first Pride festival. It was the first time he saw people like him.

[Speaker 1] I'm proud of the fact that we were able to create such an inclusive space and the fact that I'm able to help people be themselves.

[Speaker 8] I am very proud of the three of us. We have been involved in advancing civil rights equality for the LGBT+ community for over 30 years.

[Speaker 9] The LGBT+ community is not just a minority out there, but they are actually our gay brothers and sisters.

[Speaker 10] It's not about denying the differences, where they exist, but embracing them and feeling that you belong nevertheless.

[Speaker 12] I'm proud to live my dreams and have the courage to live it.

[Speaker 2] To have served to defend the freedom of others.

[Speaker 13] Having the blessings from our family and friends.

[Speaker 14] I'm proud of our joy. I'm proud of our ability to laugh together.

[Speaker 15] I am proud to hold his hand.

[Speaker 16] I'm so proud of my son.

[Speaker 17] I am proud of being strong.

[Speaker 18] I am proud of us.

[Speaker 19] Of my partner, Tomás.

[Speaker 20] Of our marriage.

[Speaker 21] I am proud to be working for HSBC as a gay man.

[Speaker 22] I'm just proud of the fact that we can live the life that we've been destined to lead.
